

## MD330 Firmware Upgrade SOP (Nintendo Switch 2 support update package)

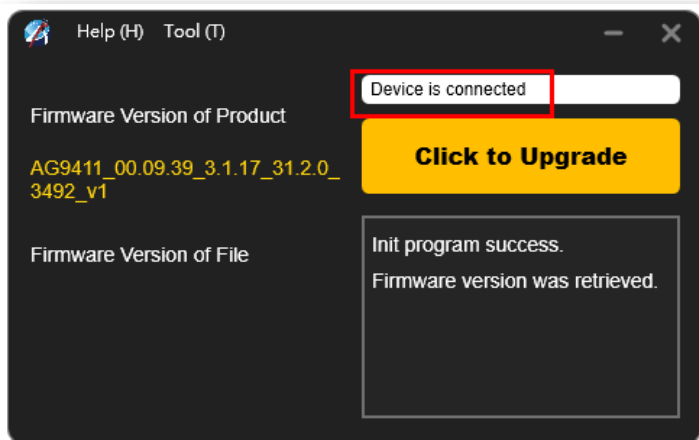

1. Please visit the official website to download the latest firmware (FW) update package:  
“MD330 Firmware Upgrade Tool\_3.1.17”  
(<https://www.patriotmemory.com/products/md330-storage-hub>)
2. After extracting the downloaded file, please confirm that the three files shown in the reference image are present and located in the same directory.

名稱	修改日期	類型	大小
AG9411_00.09.39_3.1.17_31.2.0_3492_...	2026/4/17 上午 11:34	UltraEdit Docum...	128 KB
One-Click Firmware Upgrade.exe	2023/6/19 下午 02:59	應用程式	736 KB
One-Click Firmware Upgrade.ini	2023/6/19 下午 03:05	組態設定	1 KB

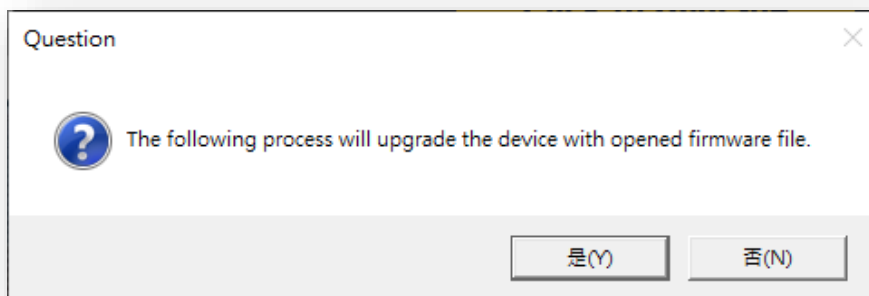

3. Connect the MD330 to your computer via the Type-C port.  
Ensure the Power Delivery (PD) port is connected to a power source (as shown in the reference image).

4. Once the MD330 is properly connected, the message “Device is connected” will appear. This indicates a successful connection (refer to the red box in the reference image).

5. When the confirmation prompt appears, select “Yes” to proceed with the firmware update.

6. The appearance of the completion screen indicates that the firmware update has been successfully completed.
