

KRASNOGOROV STUDIO

MOSAIC TABLES

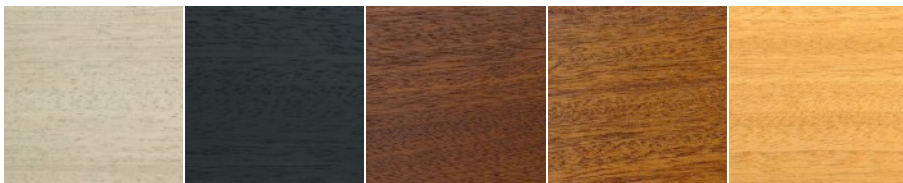

The Mosaic Table features a pattern of “tiles” of varying shape, each a small “slab” in the spirit of George Nakashima. Like Nakashima, the focus is on the wood with all its wondrous beauty. Figured grain, knots, crotches, flame patterns, etc. are selected and displayed in contrast to most production furniture where these “defects” are avoided as disruptive and unsightly. The hand carved edge recalls the “live” edge of a slab table.
