INDUSTRIES

ThreatLocker + Smarttech247 in Healthcare

Healthcare providers face persistent threats from ransomware, insider risk, and unauthorized software.

Together, Smarttech247 and ThreatLocker enforce strict application control, manage privilege escalation, and give security teams full visibility across endpoints. Clinicians maintain seamless access while risk is contained at the source.

ThreatLocker + Smarttech247 in Government

Public sector teams must meet strict compliance requirements while protecting against bloatware and unmanaged applications.

With Smarttech247's MDR and ThreatLocker's Unified Audit capability, organisations gain complete visibility into every running application, scored for risk, origin, and behavior. This combined approach supports NIS2, ISO 27001, and other key frameworks.

ThreatLocker + Smarttech247 in Defense

Critical systems often run on constrained or legacy infrastructure where traditional security tools fail.

ThreatLocker's lightweight architecture consumes less than 1% CPU, while Smarttech247 provides around-the-clock MDR and offensive threat response. Together, we secure even the most complex or outdated environments with speed and efficiency.
