Kulim is a district and town in Kedah, Malaysia. It's located near the border with Penang and forms part of the larger George Town Conurbation. The area has been settled since the mid-18th century by Malay descendants from Pattani. In the 19th century, tin ore was discovered, leading to Chinese miners arriving in Kulim. Today, the district is home to a diverse population of around 272,000 people. Kulim is divided into 15 mukims or sub-districts, each with its own unique character. The town has a rich history, with evidence of settlement dating back to the 18th century. In recent times, Kulim has undergone rapid development, with new industries and infrastructure emerging. The Kulim District Council (Majlis Perbandaran Kulim) is responsible for governing the district, which includes providing public services such as education, healthcare, and transportation. The council was established in 2001 and aims to promote excellence and dedication in all its endeavors. The Kulim District Council was established in 1978 through the merger of several local councils. The council has a special authority overseeing the Hi-Tech Park, which is the district's most prominent high-tech industrial park. In 2019, the federal government approved a MYR 1.6 billion investment to build the proposed Kulim International Airport, but construction was halted in July 2023 due to lack of need. The district is home to notable individuals such as Ismail Omar and Dr. Jegajeeva Rao Subba Rao, who have made significant contributions to their respective fields. The Kulim District is represented by several members of parliament, including Azman Nasrudin, Roslan Hashim, and Wong Chia Zhen. The district also has its own state assembly representatives, including Siti Ashah Ghazali, Khairul Anuar Ramli, and others. According to the Department of Statistics, Malaysia, the Kulim District had a population of 243,647 as of 2010. The district is part of the Northern Corridor Economic Region and has undergone significant urbanization in recent years. The Butterworth-Kulim Expressway connects the district to other major cities in Peninsular Malaysia. Kulim District Background in Malaysia The Defender V8 has a maximum roof load of 661 lbs when not off-roading. In off-road mode with a tow eye cover removed, it can hold up to 260-370 lbs depending on the tire type and roof rack fitted. Driving in floodwaters or moving water is extremely dangerous and should be avoided. Wade Sensing only detects water depth at the present time, not ahead or around the vehicle, leaving the driver responsible for determining route conditions. The term compact SUV is often used but lacks an official definition due to varying sizes and dimensions among manufacturers. Some models are based on car platforms, while others use truck chassis designs. Historically, vehicles like the Chevrolet S-10 Blazer (1982-1994) and Ford Bronco II (1984-1990) were popular in the compact SUV market segment, known for their refinement and utility. The original Jeep Cherokee XJ was a groundbreaking vehicle that introduced the concept of a compact sport utility vehicle. It had identical dimensions to its truck counterpart but with a unique interior design and features after the doors. The Cherokee XJ was praised for its unibody construction, lightweight suspension, and passenger car-like comfort. This pioneering SUV established the modern market segment and influenced other manufacturers to follow suit. With room for five passengers and their cargo, it quickly gained popularity among families who needed a vehicle with ample space for daily use. Over 2.8 million Jeep XJs were produced in the US between 1984 and 2001, making it one of the best-selling compact SUVs globally. The Cherokee's impact on the automotive industry led to the creation of the present demand for compact sport utility vehicles. Jeep Cherokee remains an iconic vehicle design. Some sources consider it one of the best SUV shapes ever created, influencing many other designers. A well-known publication featured the model in its early years, while others have evaluated its performance and capabilities. The Jeep Cherokee's versatility makes it suitable for various purposes, from school runs to long journeys. 60/40 split on the third row. The 130 variant has similar specs, but its third-row fold is in a 40/20/40 layout. If you're looking to buy a modern Land Rover Defender, it's worth considering, as it comes with a more updated package and a 2.2-litre diesel engine that's both powerful and economical. We recommend the 110 version, which seats five (and seven if needed), for its capability off-road. Regardless of the model you choose, you'll get a reliable and capable companion for off-roading adventures. The Defender excels in its natural terrain, unlike other cars on the road. If you do decide to buy one, you'll be getting an iconic 4x4 that's loved by many. If you're considering alternatives, the Jeep Wrangler is another option worth exploring. It features a strong diesel engine, reliability, and sturdy construction, but falls short in terms of running costs, steering, and comfort. The Toyota Land Cruiser is also practical, built to last, and known for its supreme reliability. While its four-cylinder engine may feel underpowered at times, it's an option worth considering.
