

GENERAL PRE-CAST CONCRETE

MATERIAL AND COLOR GUIDE

General Notes

- The Levus+ system creates a modular planter box using multiple concrete units.
- We ensure consistent color and texture across all panels; however, natural variations on the surface is a natural characteristic of pre-cast concrete and variations will occur in color and aggregate.
- We follow APA guidelines for mix and color consistence, refer to the APA Technical Bulletin 21-01 Color in Architectural Pre-cast 5.27.21 for more information on expectations and process.
- We recommend that you follow the APA guidelines when selecting a color and finish. If you have any questions, don't hesitate to contact us.

Example of Acceptable Color Variation Within The Product For QCP's 'Natural' Color
