Tears of the kingdom strategy guide

The Legend of Zelda: Tears of the Kingdom is more than just a game; it's an experience that challenges your perceptions and pushes the boundaries of what an open-world game can achieve. The moment you start playing, you'll realize that everything you thought you knew about how these games work needs to be reevaluated. Link's new Ultrahand ability opens up a world of possibilities, allowing him to craft anything from boats to mechs using Hyrule's natural resources. On the other hand, Fuse lets you combine almost any object with another, giving you access to some incredibly creative and powerful tools. The game also takes place in two distinct environments: the Great Sky Island floating above the landscape and an underground area shrouded in darkness. Each of these environments offers a unique experience that's as exciting as it is challenging. While paying homage to its predecessor, Breath of the Wild, Tears of the Kingdom introduces new elements that expand on what we know about the series. The shrines, which were a staple in Breath of the Wild, return and offer more challenges than ever before. This game is an adventure that will leave you with so many options and possibilities it's hard to choose where to go next. Note: I've removed some phrases to fit the format To stay on track with the Main Quest, utilize our guide if you become lost or uncertain about your next step. The sections below are organized by the Main Quests received during gameplay, but note that many quests, such as dungeon completion order, can be done in any order. Most Main Quests are technically optional and offer varying benefits on the path to defeating Ganondorf and finding Princess Zelda. Refer to the sections below for a recommended route featuring essential paths to each main quest region. The journey includes visiting Great Sky Island to find Princess Zelda, navigating through the Kingdom of Hyrule, addressing the Crisis at Hyrule Castle, and exploring regions like Rito Village, Goron City, Zora's Domain, and Gerudo Town. Each region has its unique quests and challenges, such as The Wind Temple Walkthrough, The Fire Temple Walkthrough, and The Water Temple, along with various Regional Phenomena to discover. Additionally, there are 60 Side Adventures and 139 Side Quests, including Shrine Quests, which can be viewed in their entirety below, with links providing more details on completion. These adventures and quests offer a range of rewards, from Rupees and equipment upgrades to new abilities and insights into the world of Hyrule. The people of Hyrule are concerned about various issues across the land. In Hestu's inventory expansion efforts, white goats have gone missing. The situation is so dire that it's affecting the local economy. There have been reports of mysterious side adventures in Hebra Mountains and Tabantha Frontier. People are eager to explore these areas, which may hold secrets to Princess sightings. The Lucky Clover Gazette has reported on several events, including a dramatic escape by the Hornist and the search for Bubbul Gems. It seems that some individuals are working towards bringing peace to troubled regions. In Akkala Highlands, there's a call to support Princess Zelda's efforts. The Foothill Stable has received a large sum of Penn Rupees, which is being used to serenade a Great Fairy. Meanwhile, in Eldin Canyon, the Hunt for Bubbul Gems continues. A mysterious shop run by Kilton has been discovered, and it appears to be selling various monster-related items. In Tarrey Town, Akkala, there's a massive collection of monsters on display. The collection is so extensive that it's becoming a tourist attraction. Some individuals are also searching for rare items like Koltin's Shop and Monster Extracts. The All-Clucking Cucco has been spotted in South Akkala Stable, bringing attention to the region. In East Necluda, there's a need to fill out the Compendium, which may be completed with the help of Robbie's Fabric. However, not all is well in Necluda. There are reports of Ruffian-Infested Villages and missing farm tools in Wetlands Stable. The situation is so dire that it's affecting local services. In West Necluda, there have been rumors of Princess Zelda being kidnapped. Fortunately, this has been addressed, and the region is now at peace. Bring Peace to Necluda! Goddess Statues and Gerudo Desert Side Quests Tears of the Kingdom Guide: A Comprehensive Companion for True Completion **Table of Contents** Welcome to our extensive guide for The Legend of Zelda: Tears of the Kingdom! This walkthrough covers all essential elements, including Korok Seeds, Shrines, Side Quests, and more. With minimal spoilers, we'll help you achieve 100% completion. **Using the Guide** Our guide is structured as a series of bullet points guiding you through objectives. Maps are included to aid navigation, with compass directions used for orientation. The in-game minimap can be set to always point North, making it easier to navigate. Coordinates are provided for most points in the guide. **Frequently Asked Questions (FAQs)** * Hyrule Compendium: Not covered in this guide; fill it as you go or use Rupees at the Hateno Ancient Tech Lab. * Shrines: Open all chests within Shrines to reveal a small chest icon on the map. * Caves: Complete all Caves by killing their Bubbulfrog and fully mapping them. **Special Notes** * Device Dispensers: Map all Zonai Device Dispensers and collect available items. * amiibo: Optional for this guide; the Super Smash Bros. Link amiibo helps with one Korok, allowing you to spawn in Epona. * Koroks: This guide covers all 900 Koroks, including Rock, Pattern, Metal Block Puzzle, Offering, Fairylight, and Pinwheel Shooting types. Let's start your adventure! To trigger Korok appearance, follow a specific yellow flower path that will periodically appear and disappear as you move along it. In order to begin racing, simply step onto the designated platform and aim to reach the goal ring before time runs out. When gliding, carefully make your way from one platform to another without touching the ground. The newly spawned platforms can be challenging to navigate. Transporting a Korok friend to their desired location often involves using nearby Zonai Devices that reward 2 Korok Seeds upon completion. In some cases, these devices might also provide additional assistance. For shelter, you can build or repair roofs on nearby structures by utilizing available materials to cover the statues. To ascend through obstacles, make use of the Ascend ability and navigate through stumps. Interacting with a Dandelion Flower will cause it to release a descending seed. You must catch this seed before it hits the ground. Mini-bosses along the path may be difficult to defeat, especially in early-game stages. Consider leaving markers and returning later for more manageable battles. Large areas of the map are covered by Lynels, offering options to fight or avoid them as needed. A comprehensive Zelda Dungeon Interactive TOTK Map is available for tracking your progress and mapping out new locations. Named Locations within the Depths contain large Crystallized Charges that increase your battery meter. The "Abandoned Mine" areas have Forge Constructs acting as vendors. When you backtrack, side quests may be completed at a later time if noted. You can also upgrade armor as you pass through designated 'Upgrade Points'. Once the Camera is unlocked, take pictures of specific enemies to aid in completing side quests. It's recommended to obtain the Traveler Medallion and teleport to the nearest point while always moving forward. This allows for minimal location resets, which can be time-consuming (approximately 10 minutes). With a vast open world to explore, players can choose to focus on completing Main Quests or venture off to discover new Shrines, complete numerous Side Quests, and uncover hidden secrets. The guide is divided into sections based on Main Quests received during gameplay but note that many of these quests can be completed in any order. Most Main Quests are technically optional, with some providing more benefits than others towards defeating Ganondorf and finding Princess Zelda. We've got a few leads on their hideout, including access through the Thunder Helm technique and infiltrating the Gerudo Highlands side. We need to investigate some of the other adventures going on in Hyrule, like spotting certain horses and finding Misko's treasure. After that, we're headed to the Corridor between Two Dragons in Thyphlo Ruins for a real challenge. We've also got a quest to complete at the Temple of Time on Great Sky Island. Our side quests are looking good too, with rewards including a Ruby Zonai and some pretty rare items like a Long Sword and a set of armor for Master Kohga.
