Celestial tarot book

Celestial tarot cards meanings. Tarot celestial. Celestial tarot book pdf. Celestial tarot deck. Celestial tarot cards book.

The Celestial Tarot Deck: A Cosmic Guide to Astrology and Mythology Kay Steventon and Brian Clark's latest creation is a stunning blend of astrology, mythology, and tarot, offering a unique and empowering reading experience. This deck draws upon the traditions of astronomy, astrology, and mythology, while maintaining the traditional structure of the Tarot. The Major Arcana cards are linked to the 12 zodiacal constellations and 10 planets, with each suit representing a different element: Wands, Cups, Swords, and Pentacles. The Minor Arcana features "extra-zodiacal" constellations, adding an extra layer of symbolism. **Ethereal Complexity in Every Card** This deck's cards evoke an otherworldly essence, boasting intricate symbolism that astounds. Occult glyphs from the Hebrew alphabet, Qabalah, and more offer a glimpse into the artist's mindset. The accompanying booklet delves deeply into each legend incorporated into the design, providing unusual yet complementary interpretations that expand one's understanding of specific cards. **Unconventional Insight** The 4 of Pentacles, for instance, is reimagined as Taurus initiating awareness of the boundary between Earth's sacred and secular spheres, prompting reflection on one's relationship with the material realm. This fresh perspective builds new dimensions of understanding. **A Deck for the Seasoned User** Not suited for beginners, this deck shines as a meditation tool and working deck for experienced Tarot users. The extensive, well-written booklet is a valuable asset. Fans of the Spiral Tarot, especially those interested in astrology and Greek myth, will find this deck captivating. **Publisher's Legacy** U.S. Games Systems, Inc., renowned since 1968, publishes the authorized Rider-Waite Tarot Deck, among other acclaimed decks like Crowley Thoth, Universal Waite, and Ethereal Visions Illuminated Tarot. Their offerings also include oracle, affirmation, and inspirational gifts. **A Historical Note** Pamela Colman Smith's 1909 commission from the Order of the Golden Dawn resulted in the first tarot deck featuring full pictorial Minor Arcana scenes, showcasing her mystical influences throughout the art. The Rider Tarot Deck trademarks are held by U.S. Games Systems, Inc. **Rewriting Method Used: Increase Burstiness (IB) - 30% probability**
