The Rider-Waite Tarot Deck The Rider-Waite Tarot deck is a widely recognized and influential Tarot system developed in 1909 by Pamela Colman Smith under the direction of Arthur Edward Waite. The deck features vibrant cards with intricate scenes, symbols, and figures drawn to convey deeper meanings. Key Figures Behind the Deck Dr. Arthur Edward Waite was a renowned scholar of occultism who authored publications like "The Holy Kabbalah" and "The Key to the Tarot". His approach to Tarot emphasized symbolism as its fundamental language. History of the Tarot Cards While the exact origin of Tarot cards is unclear, theories point towards ancient Egypt, where Thoth was revered as an Egyptian Mercury. The myth states that Thoth created the hieroglyphic system and passed down knowledge about Tarot cards to the Gypsies, who then dispersed them throughout Europe. Pre-Waite Records Historical records reveal earlier forms of Tarot-like games in medieval Europe. For example, a 1377 game called Ludus Cartarum is mentioned, while another German monk describes playing cards in the year 1369. Playing cards are believed to have originated in Europe during the latter half of the fourteenth century, with Italy likely being the first place they emerged as a complete 78-card deck. It is thought that someone combined the existing 56 Minor Arcana cards with the 22 Major Arcana Tarot cards to create this new deck. In the fifteenth century, Tarot cards were often hand-painted or drawn for wealthy families in Northern Italy and France. As technology improved, card packs became more widely available through various printing techniques such as woodcuts, stencils, and copper engraving. By the sixteenth century, a modified version of the Tarot pack known as the Tarot of Marseilles gained popularity. Interestingly, 17 Major Arcana cards found in the Paris archives are believed to have been hand-painted around 1392 by Jacquemin Gringonneur for Charles VI of France, although their origins may be later and from Venice.
