

MANTIS

CONNECTED CAMERA
SOLUTIONS

MANTIS

We worked with MANTIS to install their multi-cam system on trucks in our fleet. Great communication and teamwork on getting this project executed. The team was very responsive and proactive to our feedback and worked with us throughout the process to ensure we were satisfied with the end product.

We look forward to continued future partnerships with MANTIS.

REDEFINING FLEET SAFETY

Built by industry experts in telematics and fleet management, we combine decades of real-world expertise with cutting edge multi-camera video intelligence to solve the challenges fleets face today.

**Real time
intelligence for
fleet managers**

Resolve disputes Settle incidents quickly with clear indisputable data.

Prevent collisions Proactive prevention and intelligent insights.

Lower costs Reduced insurance premiums and operational expenses.

Prove

Prove incidents with 360° visibility and insights.

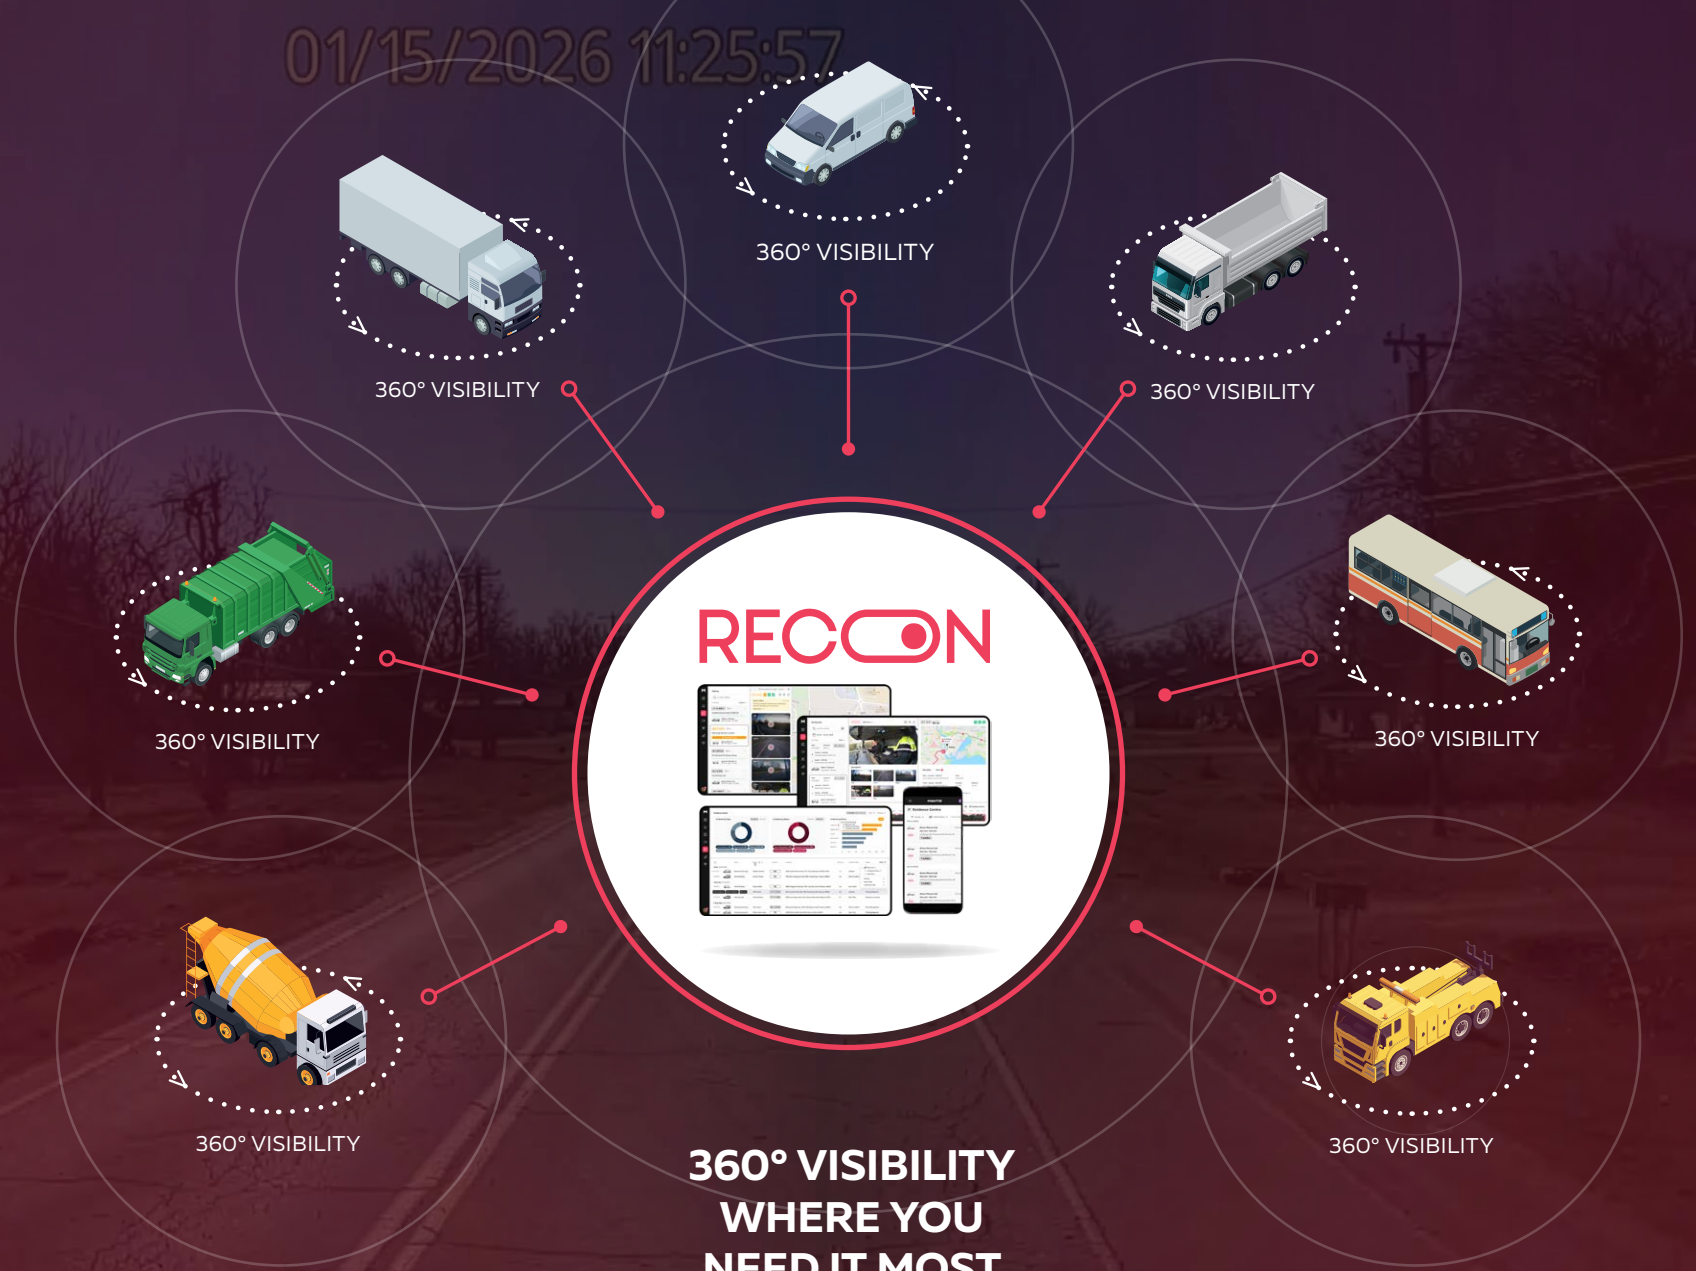

Prevent

Prevent collisions before they happen with real-time safety alerts & intervention.

Protect

Protect drivers and fleets with risk reduction and greater control over loss ratios.

RECCON

**360° VISIBILITY
WHERE YOU
NEED IT MOST**

SAFER FLEETS. FASTER DECISIONS. LOWER RISK

Built for busy fleet managers, Mantis solutions and Mantis people make a difference from Day 1. With 360° visibility, unrivalled connectivity and proactive insights that protect drivers, cut claims and keep your fleet moving safely and efficiently.

Prove

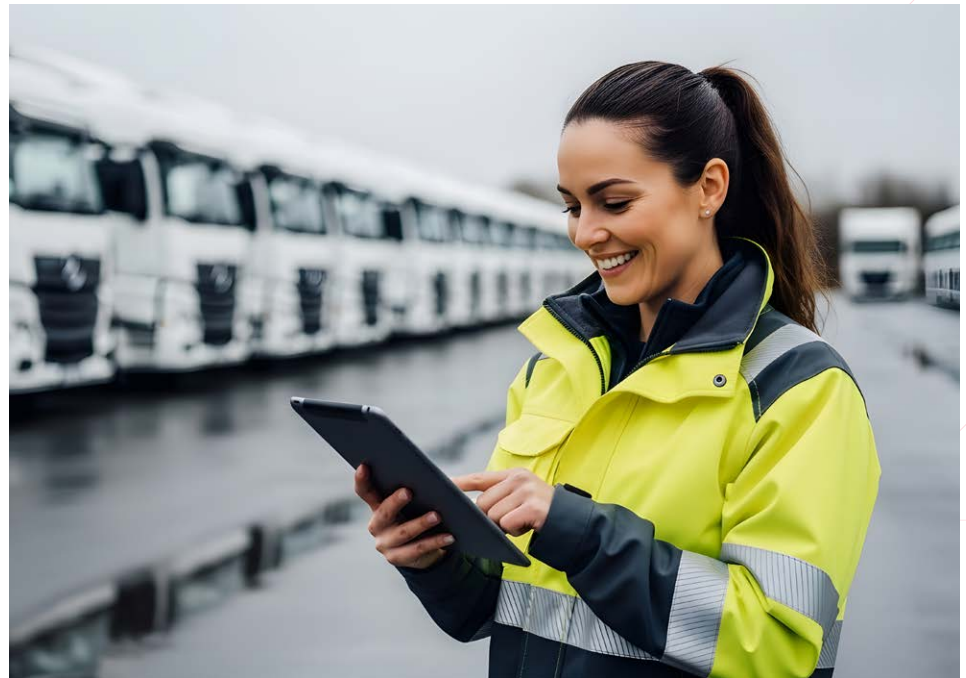

- » 1-24 camera connectivity
- » 4 months of dual-storage footage
- » Collision reconstruction
- » Real-time fleet visibility

Prevent

- » AI blind-spot detection
- » Driver co-pilot with real-time in cab alerts
- » Real-time system health monitoring
- » Predictive risk dashboards for vehicles and drivers

Protect

- » Collision & risk prediction
- » Coaching dashboards & safety scorecards
- » Fleet-wide benchmarking & coaching tools
- » Risk intelligence for insurers

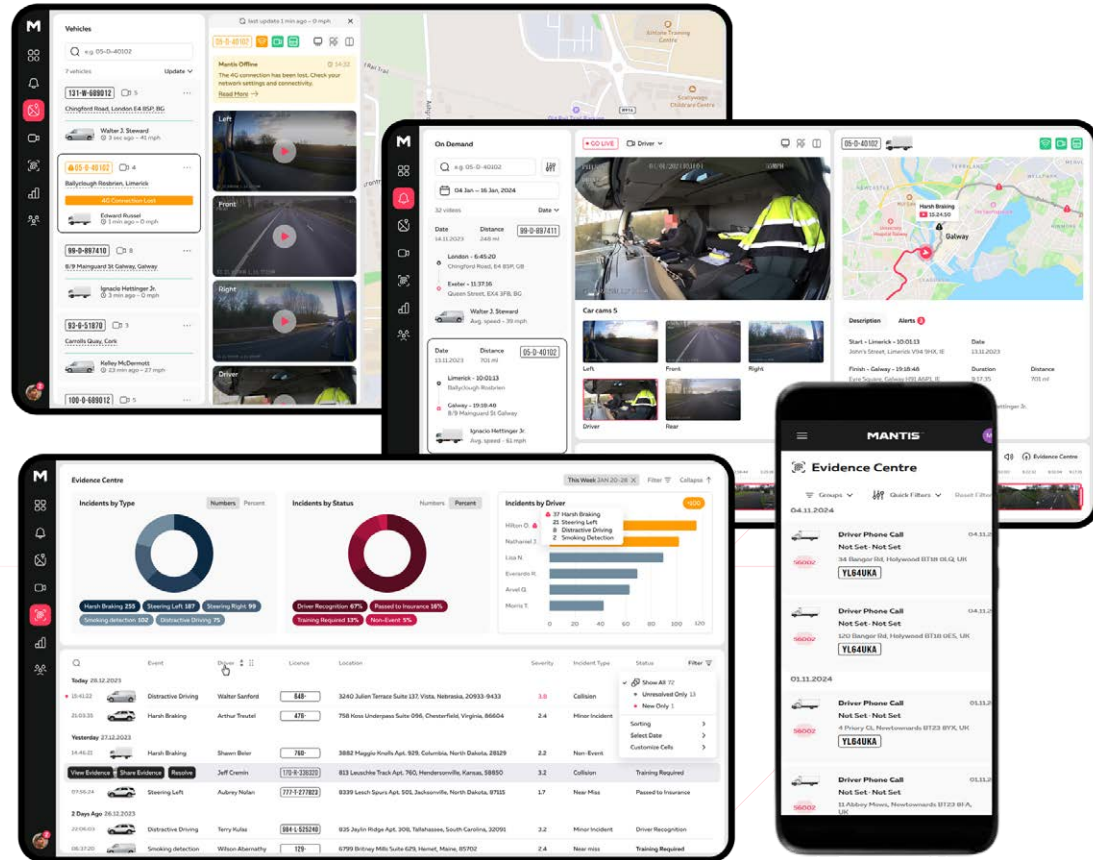

REAL-TIME EVALUATION & CONTROL

RECON

Mantis Recon delivers high definition, multi-camera visibility and real time risk insights. All in on platform.

Connected camera systems and seamless connectivity make it easy for fleet managers to get a single view of their fleet, spot risk early and improve fleet performance.

SMART INSIGHTS FOR FASTER CLAIM RESOLUTION

When a collision happens, seconds matter. Mantis Recon revolutionizes claims processing, with AI powered Collision Insights giving managers and insurers the clarity needed to resolve claims faster, reduce disputes and protect drivers from false liability.

Incident Occurs

Automatic video upload.

Automated Analysis

Detailed reconstruction report.

Share Securely

Accurate report for insurance provider.

Settle

Swift and decisive resolution.

MANTIS CONNECTED

Collision Insights

Leveraging telematics, video, and AI-powered events, Collision Reconstruction delivers automated collision reconstructions.

In Platform Vehicle Health Alerts

Receive real-time fault alarms directly within the platform.

Live View

Real-time camera viewing capability.

Advanced Telematics Integration

Integrates with Geotab for a single platform experience.

On Demand Streaming and Download

Experience seamless playback and download of any stored footage.

MANTIS Risk Prediction

Driver risk scoring and collision prediction.

VEHICLE SOLUTION

Evidence Centre™

Intelligent, AI-driven incident management platform.

Multi-Network Connectivity

Unrestricted connectivity with adaptable data allowance.

Rapid Access Memory

Extends memory capacity by up to 4x.

AI Event Upload & Analysis

Automated upload and analysis of event-triggered footage.

Multi-Cam Incident Share

Effortlessly share incident footage for fast investigation.

Footage Capture Support

Dedicated support for incident footage retrieval.

Geotab Marketplace partner MANTIS delivers an all-in-one, cloud-based telematics and camera experience that empowers fleet operators with AI-driven solutions, setting a new standard in fleet management.
