MERANTI CAFÉ is inspired by the 100.8metre endangered yellow Meranti tree (*Shorea Faquetiana*), the world's tallest known living tropical tree found in Danum Valley Conservation Area.

Sabah International Convention Centre stands tall and proud leading the environmental sustainability principles, by raising awareness and instigating changes not only within the local community but on a global platform as well.

Located in the "rainforest wing" (Level 3) of the convention centre, MERANTI CAFE is a perfect homage to commemorate the conservation efforts of Sabah International Convention Centre.
