

QuickJet Pricelist

2026

Who we are

QuickJet® is a patented system of disposable galvanized sheet metal formwork that simplifies and optimizes the construction of concrete structures.

Developed from an industrial patent and now owned by SISA Srl, QuickJet® has established itself as a revolutionary solution for the construction industry, thanks to its ability to combine efficiency, safety, and sustainability. It is a modular system made of galvanized sheet metal designed to remain in place, completely eliminating the need for dismantling and significantly reducing time, costs, labor, and risks on site, while ensuring high-quality technical and structural results.

Terms and conditions of sale

1. Prices

All prices are exclusive of VAT (the rate in force at the time of shipment will be applied) except for errors and omissions.

2. Orders

Orders must be sent in writing and must include all the information necessary to complete the supply. QuickJet® declines all responsibility for non-compliant goods if the order has not been accompanied by all the necessary information.

3. Shipping costs

QuickJet® uses couriers for standard and express shipping throughout Italy. The standard service includes shipping from the warehouse to the customer; delivery times are 24-48 hours. For the price list, please contact the Sales or Marketing Department. Transport costs for additional services and/or packages of non-standard size/weight will be estimated and communicated on a case-by-case basis and charged on the invoice.

4. Complaints

Complaints regarding any shortages in quantity and/or defects must be reported in writing within 7 days of receipt of the goods.

5. Returns

Any returns of goods must be agreed in advance with our Sales Department. Transport costs will be borne by the customer.
