

Teacher Assistant/Paraprofessional Pathway Program to NYS Licensure

Bachelor's of Science in Early Childhood & Childhood Education

Join the Monroe University School of Education and discover how teaching can be a powerful career that positively impacts children, families, and communities.

Our Early Childhood and Childhood Education pathway program is designed for teacher assistants and paraprofessionals ready to transition into lead teaching roles. You'll continue working with children in today's schools—where your skills are most needed—while preparing for a fulfilling teaching career.

Monroe University also offers a range of scholarship opportunities for qualified students. We invite you to apply and take the next step toward becoming an educator.

WHAT MAKES OUR PROGRAM UNIQUE:

Monroe offers a flexible program tailored for paraprofessionals and teacher assistants currently working in schools, with built-in preparation for New York State certification.

- + The program is designed to help students complete all certification requirements, including the certification exams.
- + Monroe University offers support with writing, math, and test preparation skills.
- + Our program provides hands-on, practitioner-based learning opportunities to help bridge the gap between theory and practice.
- + Students will have access to math computer-based programs and supplemental workshops in preparation for the certification exams.
