

SENTA

Upward Wall Washer

SENTA is a recessed, wall-mounted linear lighting profile with a smooth curved form that blends seamlessly into plaster finishes. Its minimalist borderless design requires no slotting and installs flush for a clean, architectural look. The integrated PC diffuser softens output for a slim, natural glow. A compact light trough ensures the fixture disappears visually while delivering efficient illumination. Ideal for corridors, accent walls, or hospitality applications. Offered in 2700K to 5000K CCT for customized ambient effect.
