

Call for Papers

22nd International Conference on Pensions, Insurance, and Savings

Demographic Change, Systemic Risks and Societal Resilience

We are delighted to open submissions for the 22nd International Conference on Pensions, Insurance, and Savings. The growing interaction between longevity/mortality, climate change, AI, health inequalities and financial instability calls for new interdisciplinary approaches to pensions, insurance and long-term financial protection.

Conference Website: <https://international-pension-conference.com/>

Date and Location

Conference dates: May 27th-28th 2027

Location: Fisciano Campus, University of Salerno, Italy

The conference will take place in an in-person format.
