

# A CMMC Solution for All

**Win more bids and protect your organization with our robust suite of compliance solutions, designed to simplify CMMC.**

## Making CMMC as Easy as ABC

SecurityMetrics has created a suite of CMMC solutions designed to make your compliance validation both simple and manageable. These automated tools allow Level 1's and Level 2's to complete a CMMC self-assessment for all 110 controls in easy-to-understand terms. If more hands-on guidance is needed, you can receive professional services to assist with preparation and certification of CMMC compliance.

Primes and larger contractors now have a groundbreaking compliance platform called CMMC Link that helps them manage and track their entire subcontractor

network. Link allows you to collect CMMC compliance information and connect with hundreds of thousands of active DoD/DoW subcontractors available in the database. You'll be able to create custom subcontractor networks and get recurring reports for any specific contractors you need compliance information on.

You'll also get help from an award-winning, US-based, live support team that's backed by CMMC experts to help both primes and contractors gather and report compliance into the ecosystem, night and day.

## Reports

[+ New Report](#)

Group Contractors into named reports for filtered views and exports

| Report Name | Created ↓ | Contractors |
|-------------|-----------|-------------|
| Report 1    | Q1        | 160         |
| Report 2    | Q2        | 132         |
| Report 3    | Q3        | 123         |

## Primes

Manage Your Entire Contractor Flowdown with Link

**Automated Compliance Dashboard:** Link, SecurityMetrics' CMMC portal, streamlines the entire contractor management process by tracking subcontractor compliance profiles and giving you a simplified, high-level overview of your network.

**Custom Reporting and Contractor Organization:** Contractors can organize subcontractors into tailored groups based on specific contracts or locations to organize compliance management.

### In-Depth View of Contractor Flow-Down:

Download comprehensive reports for detailed compliance metrics and create monthly snapshots to track historical subcontractor status over time.

**Effortless Subcontractor Onboarding:** Users can quickly review existing contractors or add new partners to their portfolio by searching for their cage code in our ever-growing database of contractors.

## Level 2 Contractors

Complete CMMC Validation with Expert Guidance

### Simplified Self-Assessment for Every
