

Clean Deck Urethane Tension Mats

Buffalo Wire Works offers urethane tension mats to screen your most difficult materials. If you want to experience the benefits of urethane without conversion costs these tension mats are for you!

Our products provide efficient screening of materials in many industry applications such as dewatering, mining, sand, stone, gravel and many others.

Features

- Available in side or end tensioned panels
- Fits all crowned decks
- 1/2", 1", 1-1/2" and 2" thicknesses available, depending on opening
- For panels larger than an outside bend dimension of 72", J-bolts will be added (standard).
- J-bolts help to keep the screen firmly attached to the screen deck.

Our tension mats can be designed with blank-out support bars for added wear life. Additional custom tension mats are available upon request. These include dams, solid impact area screens and clamp rail fastening systems. Contact us today to see what we can do for you!
