collective pleasure

THE ARK OF

Spazio '500 hosts artistic nomads within its premises. It is a microcosm of dialogue, diversity, space within a place, beyond ties to the ordinary, to the obstacles that block connections.

The space is a haven for creative creatures to thrive beyond the hypnosis of destructive realities, to nurture and let the central fire burn.

Spazio '500 is where one can stay in deep listening and resonate with life in all its forms. The main building whispers of the Renaissance of which we who inhabit it mend the memories by licking the wounds of the past, transforming suffering, and furthering ourselves from hierarchies and categorisations, allowing all life present to blossom day by day. We explore generative alternatives to dominant systems of oppression through creative reciprocity, openness, and radical kindness. We embody a conscious mycelium choosing to become an interconnected part of a decentralised multiplicity.

- theatre
- dance
- vocal practices
- site-specific performance art
- co-existence oriented creative process
- the everyday seen as art and art as an awareness practice
- sensitising towards presence
- garden spirals and foraging, food as part of our living body
- viable community response-ability
- differences unite

LIGHT

The cross-shaped structure is aligned with the four cardinal directions; the space's ceiling is made of mandala-like arches typical of the 1400's local architecture.

Spreading its vertical wings on two floors, 150 square meters each. The central hall on the second floor is equipped with mats and is 80 square meters alone. In the case of residency programs, she accommodates up to 20 people in shared rooms with 4 bathrooms and 2 showers.

Our park: The park hosts in its 9000 sqm, secular trees and is a haven for wild creatures and our beloved wood-fire oven

INFO

surroundings

Natural surroundings within 10km:
Vigolana mountain range, Cima Marzola, Levico and Caldonazzo lakes.

arrival

Spazio 500 is at the centre of a small village, accessible by a 25min bus ride from Trento. We encourage people to use car-sharing or public transport when arriving. We wish to respect the local environment and avoid overwhelming the neighbouring beings.

THE KITCHEN

The kitchen is a place of the symbiocene, nurtured and made beautiful by cooperation and inspiration. The way we nourish our life resembles our relation to the environment, taking us outside and beyond the anthropocentric and capitalist production of our everyday realities.

Continuously evolving, looking for ways to encourage symbiotic relationships, receiving and giving in an equilibrium.

We cook from organic farm grows, gather wild herbs, pickle, grow both milk and water kefir, source locally and feed ourselves from our permaculture garden as much as possible.

THE SEASON

activity

Throughout May until September we share:

- residencies
- workshops of arts
- poetic living
- creativity
- independence
- performance

a few of our artistic collaborators

- Milon Mela
- Maria Gaitanidi e Mario Monopoli
- Kea Tonetti e Tivitavi
- Yumiko Yoshioka
- Sainkho Namthchylak
- Shinichi Iova-Koga
- Maud Robart
- Lucia Palladino
- Alexandra Jane Wynne

- Anna Kushnerova
- Darinka Pilari
- Russ Cubrich
- Hihiri Pipiri
- Khaleb Brooks

We are open to myriads of collaborations, artistic resonances and cross-pollinations. Get in contact via email.

volunteering

Do you wish to help us taking care of our spiral garden, screen printing, hosting community events? Scheming and dreaming?

ACCESSIBILITY

Spazio '500 wishes to be a kind microcosm where the creatures who enter it are welcomed to feel free to open up and externalise their authenticity.

We wish our spaces to be inclusive and supportive for all creatures with particular care for women (trans, intersex, and cis) and all non-binary, a-gender, and gender-variant people. Self-definition is at the sole discretion of the individual.

Discrimination towards marginalised people does not belong in our space. Most of our events are on the ground floor, hence they are accessible to people with mobility limitations. If a differently-abled person wishes to reach places that are less accessible it will be our core group's responsibility to make it happen smoothly.
