TIP OF THE DAY

It's important to care for your heart! Your heart is responsible for many of the important functions in your body, but neglecting our hearts causes several of the leading causes of hospitalization in Canada. Some great ways to show your heart the love it deserves include:

- Get at least 30 minutes of aerobic activity 3-5 x/week
- Focus on reducing your cholesterol, salt, and saturated/trans-fat intake
- Eat as many fibre-rich foods as you can!
