OUR SUMMER ACTIVITIES!

SOCIAL MEDIA INFLUENCER

Participants team up to create their own personal brands that show who they really are: honest, authentic, and relatable. Through hands-on video creation and scriptwriting, they learn to take on challenges, build confidence, and grow their digital skills along the way.

PICKLEBALL TWIST

Get ready to level up your game with a fast-paced twist on pickleball that you can play anytime, anywhere! Campers will team up to bump, set, and smash their way through exciting challenges while building teamwork, strategy, and skills—no court required.

CLAYMATION

Ever wanted to create your own animated content from scratch? In this hands-on claymation lab, you'll design characters, shoot stop-motion footage, and produce your own short film using real tools and pro-style techniques.

ENGINEERING

Try your hand at designing packaging that keeps contents safe during shipping. Challenge yourself to create the most effective solution while meeting strict shipping requirements and see if your design can make your company the most successful.

DISC TARGETS

Get ready to level up your aim in this high-energy camp where campers aim at targets and throw discs to build accuracy, control, and confidence through fun challenges and games. With exciting competitions and skill-building stations, campers will test their precision, improve their technique, and see how many points they can score!
