What to Look for in a Pediatric Dentist In Pocatello?

Looking for a new dentist for your children? Look no further! We completely understand picking a dentist can be an intimidating process, especially if your child has had a bad experience at the dentist previously. Here's a quick checklist for what to look for.

New Patients   **Updated On:** September 9, 2025

Looking for a new dentist for your children? Look no further! We completely understand picking a dentist can be an intimidating process, especially if your child has had a bad experience at the dentist previously. Here's a quick checklist for what to look for.

5 things to look for in a Pediatric Dentist

1. Do they have things kids like?

Dentistry might not be super exciting for children, so how do our patients look forward to their appointments? Well, to kids, we offer far more than premium dental care. At Just 4 kiDDs Dentistry For Children in Pocatello, we offer movies and video games from the waiting room to the dental chair, and even more fun in-between! Our clinic has been built just for kids.
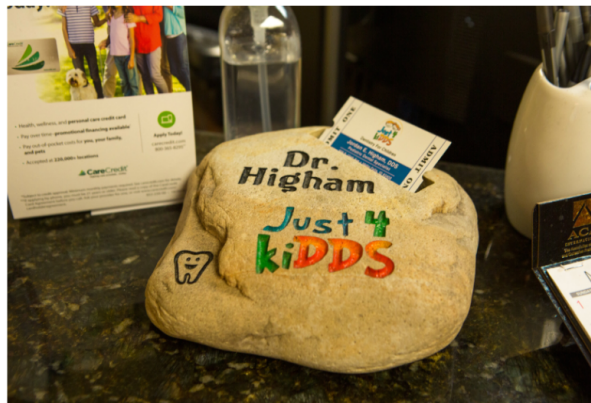

2. Is the staff good with kids?

The scariest thing about a trip to the dentist is how many new experiences are packed into a single visit. The best pediatric dentists and teams show the children each dental tool, explain the procedure in bite-sized pieces, and really get down on each child's level. Here at Just 4 kiDDs in Pocatello, our staff is ready to help out each child make it through their appointment and have a great time.

3. Are they licensed pediatric dentists?

At Just 4 kiDDs Dentistry for Children in Pocatello and Idaho Falls, each of our dentists are licensed pediatric dentists. The difference between a general dentist and pediatric dentist is down to education. Pediatric dentists take another two years of residency training to prepare to see children regularly. And to keep up on the latest treatments, methods, and more, pediatric dentists further their education annually with seminars and classes. While general dentists are licensed to treat patients of all ages, pediatric dentists will have equipment sized and more suited for children and skills to ease their fears, behaviors, and more.

4. Do parents like them?

Beyond what kids like, parents have to be able trust the staff independent of their child's experience. Our dentists have experience working with children of all ages. If you'd like to read some of our parental testimonials, head to our **testimonial page**.

5. Do they have multiple locations?

More locations means more patients, which means that the dental clinics are doing something right! Having multiple locations is also way more convenient. With more doctor options, scheduling opportunities, and emergency coverage in multiple cities, picking a pediatric dentist with multiple locations is a no-brainer. Just 4 kiDDs Dentistry for Children has offices in Idaho Falls and Pocatello to help make your life a little bit easier.

Why Just 4 kiDDS?

Located in Idaho Falls and Pocatello, Just 4 kiDDS Dentistry for Children is known for its kid-friendly staff and environment. With a movie theater, video games, and TV screens above the dental chairs, kids and parents look forward to their next appointment. If your pediatric dentist doesn't meet the basic needs mentioned above, it may be time to make a switch. Schedule an appointment today and see if Just 4 kiDDS Dentistry For Children checks all of the boxes for your family!

Looking for a dentist your kids will be *excited* to go to? Schedule an appointment with Just 4 kiDDS Dentistry For Children sooner rather than later!
