**Sound.
Souls.
Connection.**

Zurich-based DJ and producer UNEXPCD moves between Melodic Techno and Melodic House, blending driving rhythms, deep low-end and emotionally charged melodies into dynamic, immersive sets.

Since stepping behind the decks in 2026, she has quickly expanded her sound into production, increasingly weaving her own unreleased tracks into her sets. For UNEXPCD, DJing and producing are part of the same language built around tension, atmosphere and connection.

In September 2026, she founded UNEXPCD Collective, a Zurich-based platform and party series dedicated to forward-thinking Melodic Techno and Melodic House.

With new music in the works and the collective taking shape, UNEXPCD is carving out a sound and space of her own both in the booth and beyond.

UNEXPCD
