Printing capacity increased

Western Plastics now offers lower minimums and faster lead times on all printed films.

Custom printing of pallet stretch wrap with low minimums, prepaid delivery nationwide. Lock in profitable re-orders for authorized distributors. Shipping and marketing benefits. Custom printed pallet wrap improves load appearance, cuts pilferage, advertise and deter tampering.

Reduce Freight Damage 101

Shipping solutions for today and into the future.

Most freight claims stem from freight being trans-loaded, restacked and or cross-docked, meaning, your freight is loaded onto a truck, then taken to a warehouse, unloaded and then reloaded onto another truck. This may occur a number of times before it's actually delivered and is standard practice for most common carriers. The more it's handled, the greater the chance of damage. Printed stretch films and stretch wrap in colors reduces the risk of this happening to your shipments.

Club Stores: Show us the value.

Display pallets and promotional packaging-two specialties of co-packers-are gaining steam as merchandising tactics. Warehouse club stores have become more aggressive players in packaging by leveraging it as both a promotional and merchandising strategy to impact their bottom line. Consumer packaged goods (CPG) companies, as a result, are feeling pressure to provide continually changing product assortments and packaging that help to increase transaction size at the checkout. Beyond that, packages are being required to look different for each player in the club channel to heighten the sense that new "treasures" await with each trip to the store. Three primary players-Costco, Sam's, and BJ's-dominate the club store channel, and each is enjoying increasing sales per square foot.

LET YOUR PRODUCTS BREATHE

SOLUTIONS FOR FOOD PROCESSORS

- ✓ Faster release of heat and moisture
- ✓ Reduction in condensation
- ✓ Reduction in chill time and maintain ideal temperatures
- ✓ Reduction of damages & retains the integrity of secondary cardboard packaging
- ✓ Also great for seasonal challenges of cold filter condensation with summer humidity
- ✓ Superior Load Containment with our reinforced bands

**AIRFLOW IS A
PROBLEM SOLVER**

SOLUTIONS FOR PRODUCE & GROWERS

- ✓ Reduces potential mold & mildew on stems
- ✓ Increased air movement (reducing any ethylene build up with some plants & produce)
- ✓ Reduce chill time & maintain ideal temperatures
- ✓ Strong reinforced bands for load stability (fertilizer, seed bags, etc)
- ✓ Boxed/bulk versions for hand film available
- ✓ Reduces the need for extra packaging like cardboard corners, foam blocks, etc

Laundry Wrap

All Purpose PVC Overwrap For Use in Commercial Laundries

Laundry wrap film keeps linens, laundry fresh – clean and crisp or fluffy soft— just the way they arrived at your store room, ready to be put into service when you need them. Clear, tough laundry wrap stretches, clings, and heat seals easily. It's ideal for hand wrapping clean linens in hospitals, hotels, dry cleaners, institutions, or commercial laundries.

Evolution

Pallet Wrap Equipment

This price competitive workhorse will give you years of trouble free operation. It will solve the problems associated with poorly hand wrapped pallets.

The Evolution represents an advanced design with completely reliable technology in a sleek frame, giving users a rugged machine of unmatched quality.

The Evolution will convert the high volume hand wrap user over to wrapping pallets by machine.

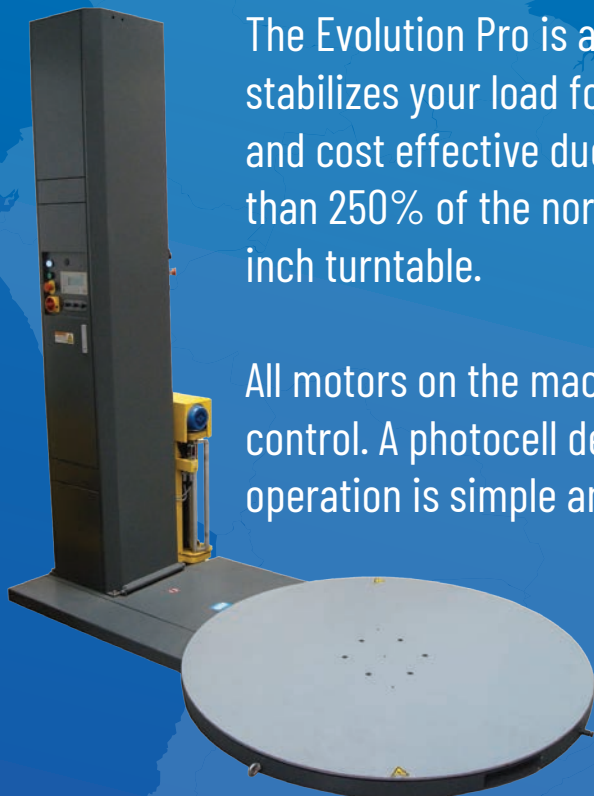

**Entry Level
Wrapper**

EvolutionPRO

Low Profile Stretch Wrapper with 250% Pre-Stretch

The Evolution Pro is an easy to use pallet wrap machine which stabilizes your load for stretch wrapping. The wrapper is efficient and cost effective due to two rolls stretching the film to but no less than 250% of the normal length. The machine is standard with a 59 inch turntable.

All motors on the machine are frequency controlled for smooth control. A photocell detects automatically the load height. The operation is simple and intuitive.

**30 INCH CARRIAGE
