

LET YOUR PRODUCTS BREATHE

**Airflow Vented Hand Stretch Film –
Ideal for Greenhouse Growers**

- ✓ Improved air circulation to help reduce mold and mildew on stems.
- ✓ Minimizes ethylene buildup in sensitive plants and produce.
- ✓ Reduces chill time and helps maintain optimal temperatures during storage and transport.

- ✓ Reinforced bands provide excellent strength for securing Heavy Loads (fertilizer, seed bags and other agricultural goods).
- ✓ Minimizes the need for corner boards, foam blocks, and other secondary packaging materials.
- ✓ Available in both boxed and bulk formats for hand application.

**IT'S TIME TO RETHINK
YOUR PACKAGING**

Lower your overall packaging costs and speed up time-to-market with AirFlow™, the ultra-strong, breathable vented stretch film that allows heat, moisture and off-gas release while containing your products with a superior holding force.

**Accelerate cooling,
off-gassing, heat and
moisture dissipation**
