

ELEVATING INTERIORS WITH
AFFORDABLE SOLUTIONS

URBAN

Built by Developers. Made for the Trade.

Urban was founded by property developers who saw the need for high-quality interiors that deliver on value, speed, and reliability. What began as a solution for our own projects has grown into a trusted supply partner for the wider trade.

We take a practical, personable approach, working closely with clients to understand what's needed and get it done right. With skilled hands and a focus on consistent quality, we deliver results that are built to last and designed to perform.

We beat the competition on quality and price

Cabinet	URBAN	Howdens	Benchmarkx	Selco

WORKTOPS

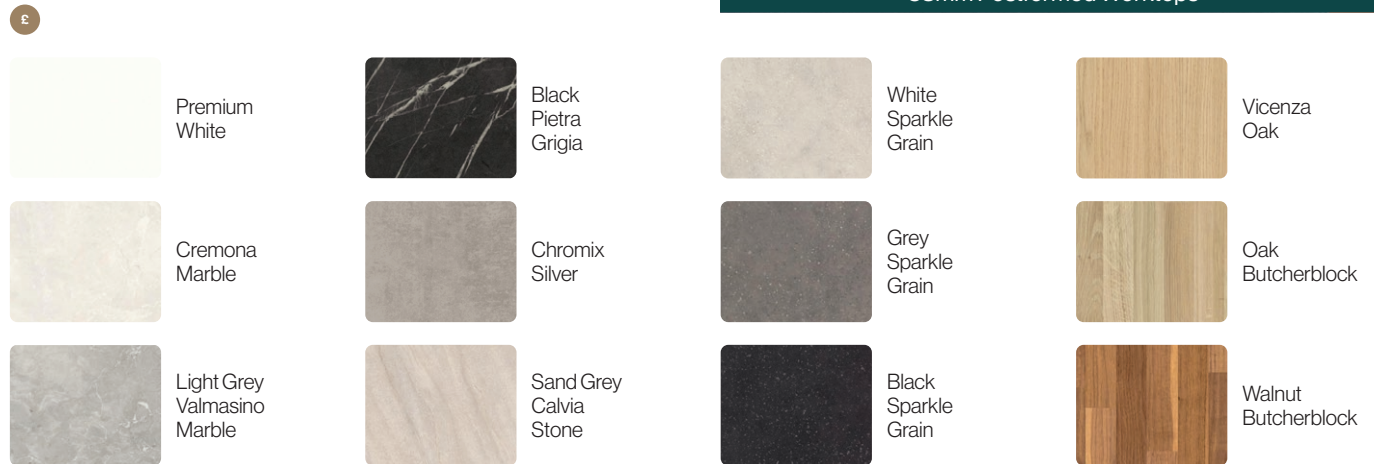

Discover the perfect surface for your space with our three premium worktop options, each engineered to combine exceptional durability with stunning aesthetics.

38mm Postformed

Stylish and durable, EGGER 38mm postformed worktops come in 12 realistic wood, stone, and material effect finishes. A dense protective layer under the laminate edge improves impact resistance and prevents chipboard show-through. With a sleek 3mm radius edge and options for one or both sides postformed, they offer a premium look without the need for tiling, just pair with matching splashbacks and up-stands.

WORKTOPS

Discover the perfect surface for your space with our three premium worktop options, each engineered to combine exceptional durability with stunning aesthetics.

25mm Square Edge

EGGER 25mm slimline worktops combine a high-end appearance with practicality. Available in 12 authentic marble, stone, and slate reproductions, they are ideal for kitchens, bathrooms, and commercial spaces. Hardwearing and hygienic, they deliver the look of real materials without the upkeep. Finish with co-ordinated accessories for a seamless, tile free design.
