

YOUR TRUSTED PARTNER SPECIALISING  
IN COMMERCIAL BESPOKE JOINERY

URBAN

# OUR SERVICES

## Consultation

Collaboratively understanding your vision, needs and budget.

## Design

Bringing creativity, technical knowledge, and manufacturing insight together to produce functional, refined, and fully visualised concepts.

## Manufacture

Blending precision CNC machinery and skilled bench joinery to ensure the highest quality.

## Project Management

Overseeing and ensuring timely delivery, seamless coordination and attention to detail.

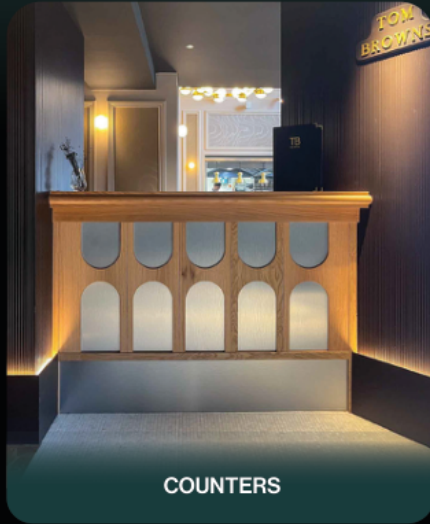

## Aftercare

Ongoing support, guidance and assistance to preserve the quality of your product.

# WHAT WE DO

# PORTFOLIO SHOWCASE

## Tom Browns Restaurant

Two bespoke bars crafted for both the main dining space, and private dining room. A solid wood bar features in the private dining area, with a fluted spray finished bar forming the centrepiece of the main restaurant. A refined upgrade that enhances service flow, and elevates this award winning restaurant interior.

## ICC Birmingham Conference Centre

A fast-paced commercial fit-out delivering bespoke banquet seating, column seating, wall panelling with lighting, and a fully integrated kitchen. Precision CNC detailing, and smooth coordination ensured well-executed installation within a demanding programme. Completed on-time for one of the UK's leading conference and event venues.

## City Centre, Office Kitchen

A spacious, modern office kitchen designed for an open plan workplace, offering generous storage and staff social space. Handleless cabinetry, integrated appliances and clean lines create a professional staff hub. A high quality, functional installation that enhances workflow and the wider office environment.

# PORTFOLIO SHOWCASE

## The Anchor Pub

A fully bespoke bar crafted for a busy hospitality environment. Warm timbers, ambient lighting, and fine detailing create a strong focal point for the venue. Designed for atmosphere, practicality and long term durability.

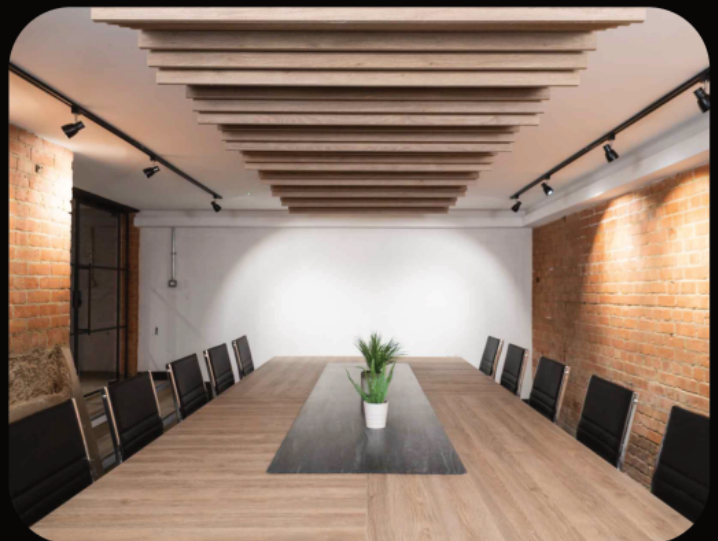

## Lettings & Property Management Offices

A full office transformation including custom desks, media walls, storage, and a compact kitchenette. Designed to elevate workflow, staff comfort, and client presentation. A clean and professional commercial space delivered with precision.

## Commercial City Centre Boardroom

A refined boardroom featuring a bespoke table, integrated storage, and full height wall panelling. A custom-made ceiling raft creates a striking architectural feature, enhancing acoustics and ambience. A premium executive space, created for impact and everyday functionality.

# DESIGN

Our design service brings together creativity, technical expertise, and a deep understanding of manufacturing, fit out, and bespoke joinery.

Every project begins with a free consultation and survey, ensuring we fully understand your space, vision, and requirements before any work begins.

Led by an experienced in-house designer with practical knowledge of how joinery is built and installed, we create initial concepts, space, and layout plans and high quality renders that allow you to visualise your upcoming environment with confidence.

Our technical insight ensures every detail is feasible, accurate, and ready for production with information passed directly to our workshop, for a seamless build and smooth installation, offering clarity, quality and peace of mind throughout the process.
