

Jointly Creating a New Chapter in Underwater Future

Chen Liping

Vice President and Secretary General of CDSA

Introduction to CDSA

Self- Introduction

Chen Liping, Vice
President and
Secretary General of
China Diving & Salvage
Association(CDSA)

Welcome and Thanks

Thank you to NUI for
the invitation;
Honored to gather with
global experts in
Bergen

Seminar Significance

A valuable platform for
knowledge exchange,
experience sharing,
and future outlook

Commitments and Achievements of CDSA

Association Profile

- Established in **2008**
- Covering **diving, salvage and other fields**
- Over **1,000** member units and **28** domestic and international branches

Key Work Priorities

- **Developing Talent and Raising Professional Standards**
- **Building Fair and Transparent Assessment System**
- **Setting Industry Standards**
- **Protecting Our Divers**
- **Expanding International Exchange**

China's Diving Industry Growth

Market Opportunities

Marine Power Strategy and Belt and Road Initiative drive investment growth in offshore wind power, cross-sea bridges, etc.

Technological Development

Increasing application scale of ROV, saturation diving, digital twin and other technologies

International Cooperation

Marine challenges are global; win-win cooperation is an inevitable trend

Proposed Areas for Collaboration

01

Flagship Exchange Platform

Jointly establish Sino-Norwegian alternating international diving seminars with NUI

02

Share Knowledge and Technology

Jointly tackle cutting-edge challenges in deep-sea technology, green solutions, and AI applications

03

Open Doors to Markets

Welcome international enterprises to participate in China's marine engineering projects; support member units to expand global markets in compliance

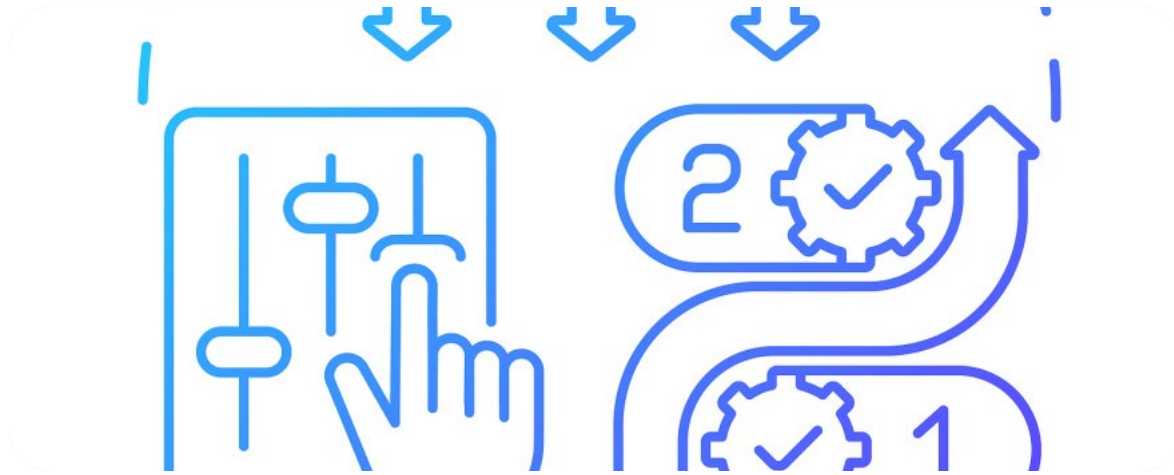

04

Standard and Safety Mutual Learning

Promote the development of international standards for underwater equipment, operational procedures, and personnel certification

Global Trends and Industry Challenges

"Technology for Good"

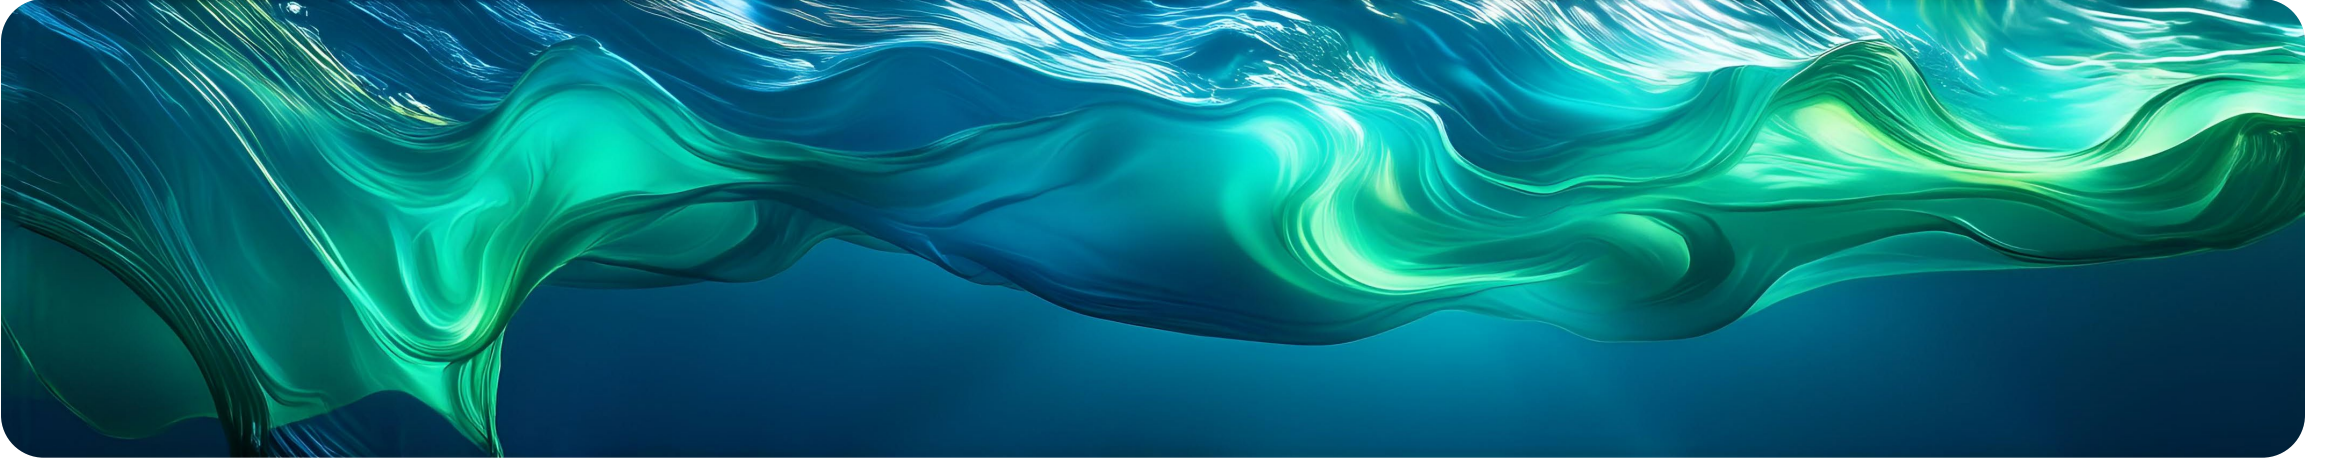

Promote underwater innovation towards peaceful, safe, and environmentally friendly development; reduce carbon emissions

Keep People at the Center

Ensure divers' safety and well-being, improve working conditions, and attract young talent

Conclusion and Farewell

Cooperation Vision

Build a safer, more efficient, and sustainable underwater future through open dialogue and innovative cooperation

Gratitude and Wishes

Thank NUI and organizers; wish the seminar a complete success

THE END

Thank You
