

MICROMILSPEC x NUI

A custom-made watch with a personalized caseback and dial, developed in collaboration with NUI

MICROMILSPEC

CUSTOM PROFESSIONAL WATCHES

MIC_520

OFFSHORE

MICROMILSPEC was tasked by offshore crew members from over twenty platforms, supply vessels, and floating production ships to capture their unique environment.

Tested. In the field

MICROMILSPEC

CUSTOM PROFESSIONAL WATCHES

DESIGN DETAILS

HANDS

Oversized hands with structural integrity and chunky pieces of top-grade SuperLuminova X1

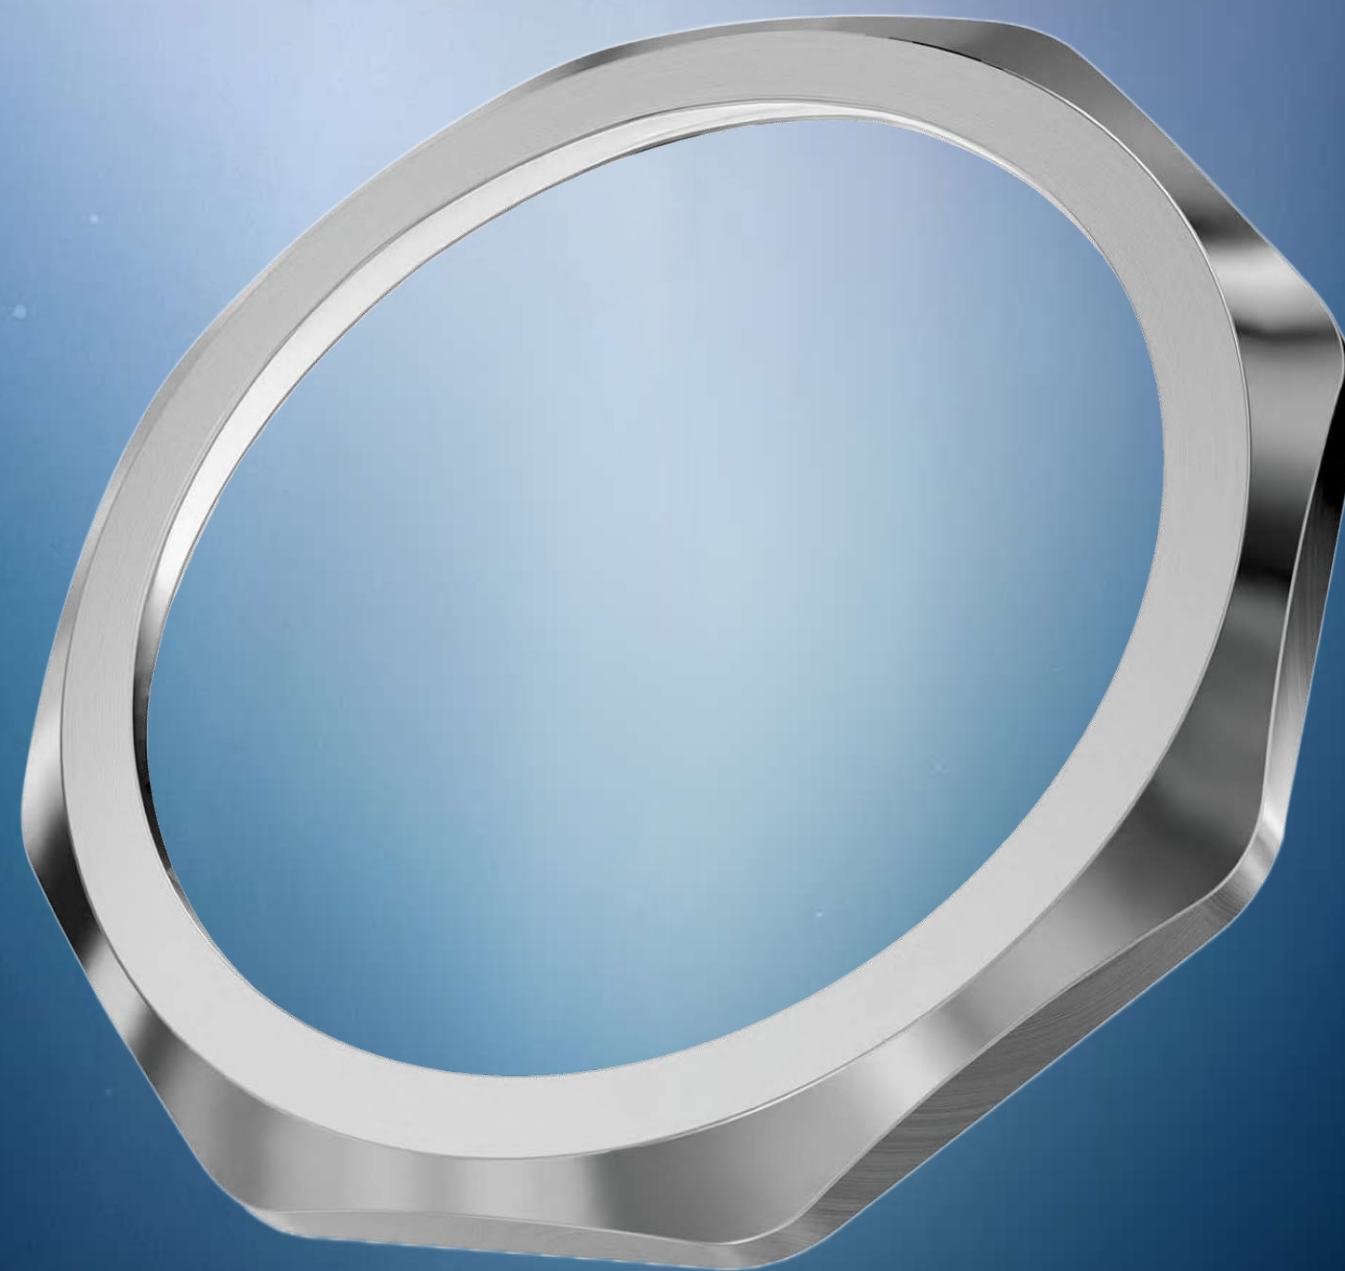

MICROMILSPEC

CUSTOM PROFESSIONAL WATCHES

DESIGN DETAILS

BEZEL

Fixed bezel styled after the 'nuts and bolts' that fasten pipes for raw material transportation, embodying the robust construction of offshore platforms and equipment.

CUSTOM PROFESSIONAL WATCHES

DESIGN DETAILS

DIAL

The dial has a sea-blue color and a wavy pattern, as well as oversized numerals and indices filled with luminous material.

DESIGN DETAILS INSPIRATION

Every element on the watch draws direct inspiration from offshore life and industry.

DESIGN DETAILS

VERSATILITY

The industrial themes are immediately evident, but the total package is nonetheless a sleek and elegant timepiece, which suits any occasion.

MOVEMENT

The Swiss made SW200-1 movement is at the heart of our timepiece, adjusted by and fitted with MICROMILSPEC rotor. This automatic movement ensures precise timekeeping with its 28,800 vibrations per hour (vph) and 38-hour power reserve. Equipped with 26 jewels to reduce wear, it offers exceptional reliability and durability, making it a high-performance timepiece.

Power Reserve

38 hours

Movement

Automatic, self-winding mechanical
