

DataQI

The Platform that powers Enterprise AI

Delivering unified enterprise intelligence
to power smarter, faster operations **at scale**

See More

Find data with

Insights

Enriches & contextualizes
data to unlock industry-
specific outcomes

Know More

Interpret data with

Assistant

Transforms data into
action with custom and
pre-built assistants

Do More

Action data with

Agent

Executes complex tasks
with coordinated, industry-
specific AI agents

DataQI Insights

See More

Enriched, industry-specific insights
to power intelligence-backed
decision-making.

Uncovering the data that matters,
with context, in real time.

DataQI Insights

For Manufacturing

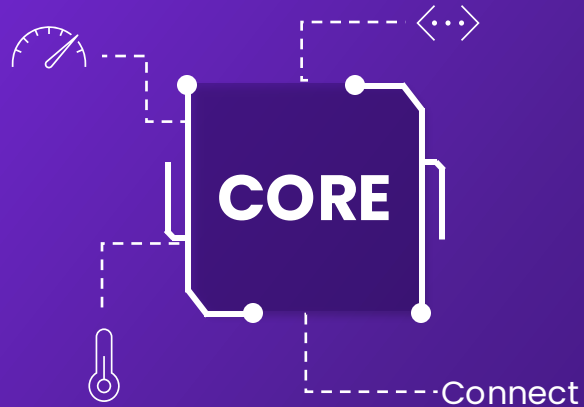

Real-time factory floor insights to help reduce downtime
and drive smarter operational decision-making

DataQI Insights

For Networking

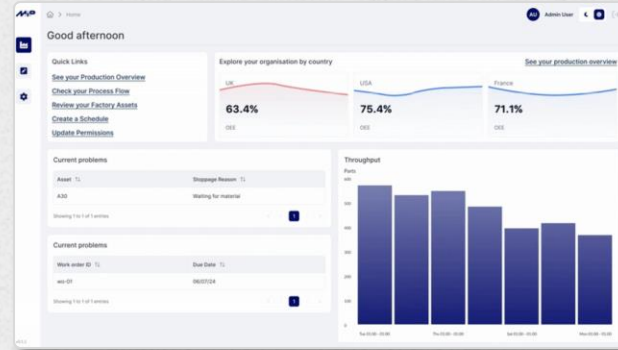

Fully managed network intelligence solution that simplifies
hybrid environments and delivers real-time insights.

DataQI Insights for Manufacturing

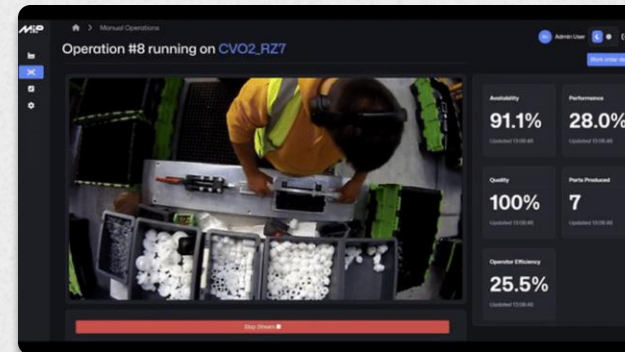

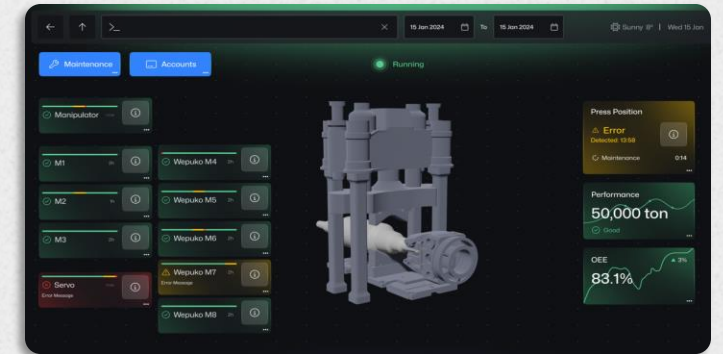

A **unified data platform** that connects PLCs for factory floor insights enriched with ERP context for a **complete view of manufacturing operations**

DataQI

Dashboards put collected data to work with a unified view of operations

Visual Factory, a custom real-time alert system for proactive management

Computer Vision and AI
Enabling manual processes to be captured in your production flow

DataQI Insights for Networking

Built to manage, secure & optimize enterprise networks, delivering complete visibility across devices and the network

Simplifying:

Vulnerability Management

Device Management

Topology Mapping

To Unlock:

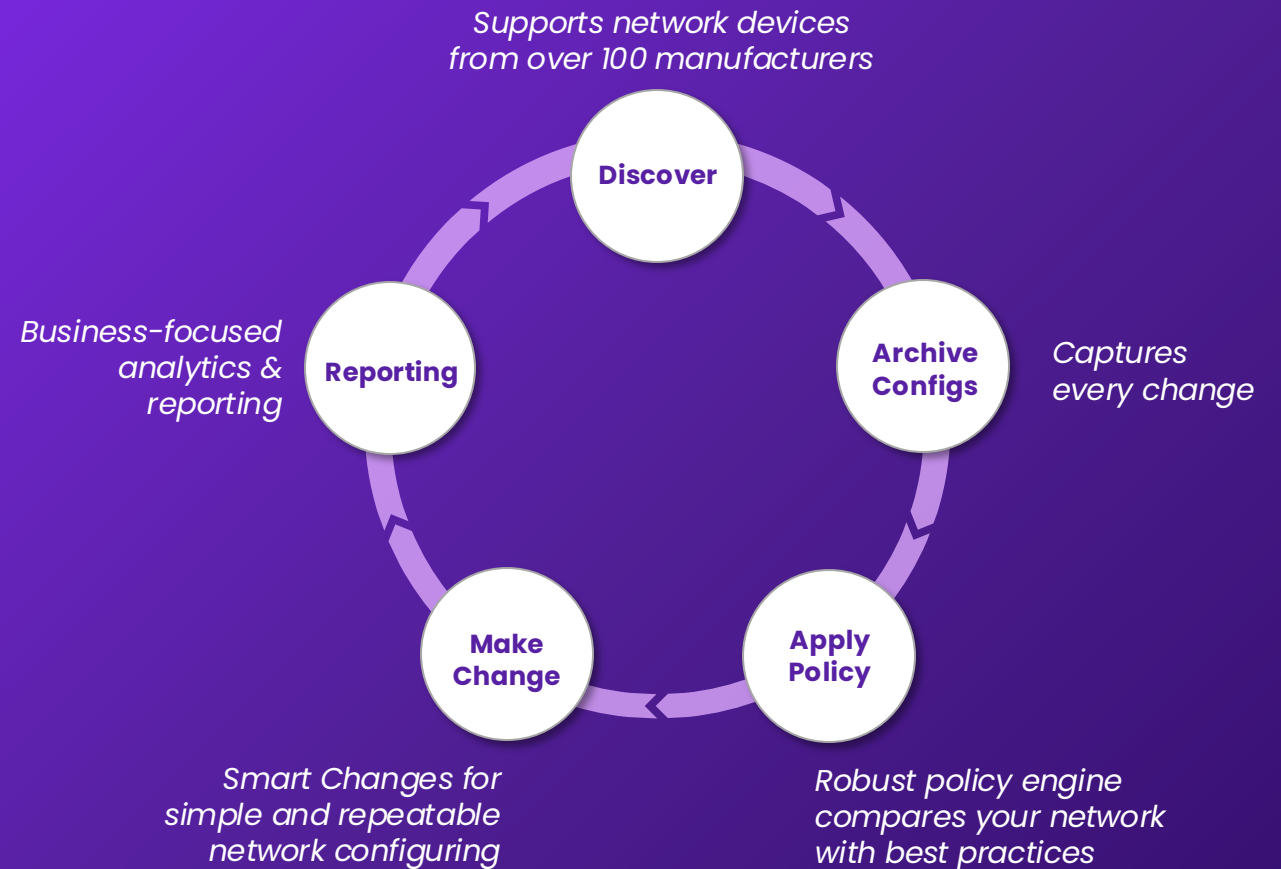

Streamlined Operations

Enhanced Network Reliability

Complete, Automated Reporting

Network management, security & visibility at scale

DataQI Assistant

Know More

A private, generative-AI platform for context-aware, enterprise-grade intelligence

Private by Design

Deployed on your equipment or in a private cloud environment.

Assistants for Accurate Outputs

Trained on your enterprise data to deliver accurate, context aware outputs.

Model Flexibility

Choose the right model for the job, ensuring precision outputs for each use case.

150+ Enterprise Applications

Connects to the tools you already use with 150+ available connections.

Built for accuracy, privacy, and flexibility – without compromising control

Delivering Context-Aware Intelligence...

Intelligent Search

Retrieves information using natural language, not just key words.

Instant Chat

Get contextually relevant answers across enterprise systems, fast.

Document Generation

Automatically create documents using company templates

...for use across industries and departments

With pre-built assistants available for:

Manufacturing

Retail

Healthcare

Financial
Services

SLED

Sales

IT Customer
Support

Finance
Departments

Marketing

Human
Resources

AI Built for the Enterprise

Common Challenges	DataQI Solution	Designed for Teams who...
General purpose LLMs have broad outputs	Custom and pre-built assistants, linked to the data sources that matter	Need accurate outputs
Publicly hosted	Privately hosted on your own equipment or in your own private cloud environment	Operate in high-trust environments, privacy is non-negotiable
Static per month pricing models	Pricing scales with users and use cases, with up to 54% cost savings compared to competitors (at 1000 users)	Move fast, and need AI that grows with the enterprise
Lack of AI model choice	Select an AI model best suited to your use cases	Need precision outputs for their use cases

DataQI Agent

Do More – Enterprise AI Agents for Workflow Automation

Scalable AI-powered workflows that connects people, processes, and systems, with **full visibility and governance**

Autonomous Agents

Deploy specialized AI agents to execute tasks across systems.

Agentic Workflows

Orchestrate multi-step workflows by chaining agents, data, and approvals

Unified, Modular, Private Data

Run on-prem or in your cloud, chose your AI models, APIs and maintain full control.

Drag-and-drop workflow builder

Pre-built agent library

Secure by Design

Coming Q4 2025. Early Access Available
