SUNSET STRIP

Complete IPR system for controlled reduction

STARTER KIT • KITSU-10

Precision throughout the entire IPR workflow

Sunset Strip is a reusable system for contouring, interproximal reduction and separation of contact points. The adjustable blade holder provides stable access and controlled finishing between the teeth.

CONTROLLED

Clear steps from 0.05 to 0.50 mm

FLEXIBLE

Single- and double-sided strips

REUSABLE

Can be cleaned and reused multiple times

Gestenco International AB • Fridkullagatan 14 • SE-412 62 Gothenburg

CHOOSE THE RIGHT SUNSET STRIP

All strips can be ordered separately. Measurements indicate strip thickness.

SINGLE-SIDED STRIPS

For contouring, finishing and reduction on a single tooth surface.

SU-SS-01
Super Fine
0.08 mm

SU-SS-02
Fine
0.10 mm

SU-SS-03
Medium
0.15 mm

SU-SS-04
Coarse
0.22 mm

DOUBLE-SIDED STRIPS

For efficient and even interproximal reduction between two tooth surfaces.

SU-DS-01
Super Fine
0.11 mm

SU-DS-02
Fine
0.15 mm

SU-DS-03
Medium
0.21 mm

SU-DS-04
Coarse
0.30 mm

SU-DS-05
Coarse+
NEW
0.40 mm

SU-DS-06
Extra Coarse
NEW
0.50 mm

SEPARATION, HANDLE AND STARTER KIT

SU-SAW-01

Serrated • 0.05 mm

For separating contacts joined with composite or cement.

SU-HA-01

Separate handle

ADJUSTABLE BLADE HOLDER

The adjustable blade holder allows the blade to be bent for easy and precise tooth contouring.

SUNSET STRIP STARTER KIT • KITSU-10

Kit contents:

SU-DS-01 to SU-DS-04, corresponding single-sided strips, 2 pcs SU-SAW-01 and 2 pcs SU-HA-01.

SU-DS-05 and SU-DS-06 are ordered separately.
