

AI-Powered Vendor & Workforce Management Across the Entire Contingent Lifecycle

Centralized Vendor & Workforce Management

- Track all vendor contracts, documentation, and compliance in one secure portal
- Manage supplier onboarding, performance, and rate card compliance
- Eliminate siloed spreadsheets with full digital workflows

Automated Process & Compliance Controls

- Automate work order creation, acceptance, and compliance checks
- Ensure adherence to labor laws, tax, and corporate policies
- Manage timesheets, expenses, invoices, and payment approvals

Advanced Analytics & Reporting

- Dashboards and customizable reports on spend, performance, and productivity
- Supplier scorecards and key metrics for informed decision-making
- Instant cost savings and vendor efficiency analysis

Integrated, Seamless Platform

- Fully integrates with Ceipal ATS, CRM, and workforce management
- Connects with DocuSign, QuickBooks, and more for streamlined onboarding and finance
- Unified ATS + VMS data eliminates silos and accelerates hiring cycles

AI-Driven Efficiency

- AI-driven workforce intelligence with predictive job insights and intelligent supplier recommendations.
- AI-based job fit scoring during supplier submissions to improve candidate quality and placement success.
- Embedded AI assistant answering supplier and worker product queries instantly, reducing manual intervention and enabling faster learning.

Who It Helps

- ✓ HR & Talent Acquisition Teams
- ✓ Procurement & Sourcing Departments
- ✓ Managed Service Providers (MSPs)
- ✓ Corporations & Staffing Agencies

Outcomes with Ceipal VMS

- Faster time-to-fill and reduced procurement cycles
- Lower cost-per-hire through automated workflows

- Reduced compliance risk and audit exposure
- Better vendor performance and accountability
