

Too many systems. Too many workflows. Choose ONE.

Ceipal Healthcare

Simplify Healthcare Staffing:
Every Tool You Need in One Platform

Complete Talent Recruitment and Management

Effortlessly source, engage, and place top healthcare professionals with AI-powered tools, centralized communication, and workflow automations.

End-to-End Credentialing and Compliance Automation

Ceipal automates critical credentialing tasks to create a compliant, efficient hiring process—verifying credentials, conducting screenings, and managing all crucial documents, all within a single platform.

Automated Workflows

Your healthcare staffing workflows don't have to be complicated. Ceipal reduces manual work, eliminates errors, and automates tedious processes—streamlining background checks, verifications, skills assessments, pay package creation, and shift schedules—in one system.

Geo-Fenced Timesheets and Invoicing

Eliminate errors with location-based clock in/out and automate timesheet creation from schedules seamlessly tied to payroll.
