This material is for informational purposes only. This material is not intended to be relied upon as research, investment, or tax advice and is not an implied or express recommendation, offer or solicitation to buy or sell any security or to adopt any particular investment or portfolio strategy. Any views and opinions expressed do not take into account the particular investment objectives, needs, restrictions and circumstances of a specific investor and, thus, should not be used as the basis of any specific investment recommendation. Investors should consult a financial and/or tax advisor for financial and/or tax information applicable to their specific situation.

Commissions, management fees, performance fees and operating expenses may all be associated with an investment in an ETF. The ETFs are not guaranteed, their values change frequently and past performance may not be repeated. Each ETF's Facts and prospectus contains important detailed information about the ETF. Please read the relevant documents before investing.

Certain statements may constitute a forward-looking statement, including those identified by the expression "expect" and similar expressions (including grammatical variations thereof). The forward-looking statements are not historical facts but reflect LongPoint's current expectations regarding future results or events. These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking statements. These forward-looking statements are made as of the date hereof and LongPoint does not undertake to update any forward-looking statement that is contained herein, whether as a result of new information, future events or otherwise, unless required by applicable law.

Each ETF is an alternative mutual fund, and as such, it is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. Certain of the ETFs uses leverage which can magnify gains and losses.
