Portfolio Strategy

The MegaLong (3X) NASDAQ 100® Daily Leveraged Alternative ETF seeks to replicate 3X the daily performance of the NASDAQ-100® Index, which is calculated in U.S. dollars, before fees and expenses. QQQU does not hedge its currency exposure to the U.S. dollar.

Index Information

The NASDAQ 100® Index includes 100 of the largest domestic and international non-financial companies that list on The Nasdaq Stock market based on market capitalization. The Index reflects companies across major industry groups including computer hardware and software, telecommunications, retail/wholesale trade and biotechnology.

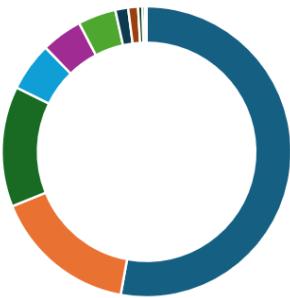

Fund Performance

Returns are not available as this ETF has less than one year's performance data.

This ETF is an alternative mutual fund, as such, QQQU is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds.

This ETF is highly speculative. QQQU uses a significant amount of leverage which magnifies gains and losses. It is intended for use in daily or short-term trading strategies by very knowledgeable, sophisticated investors. If you hold this ETF for more than one day, your return could vary considerably from the ETF's daily target return. For example, you could lose your entire investment in one day if the underlying index of the ETF experiences a single-day price movement that is greater than 33%. The negative effect of compounding on returns is more pronounced when combined with leverage and daily rebalancing in volatile markets. QQQU is not suitable for investors who do not intend to actively monitor and manage their investments.

This material is for informational purposes only. This material is not intended to be relied upon as research, investment, or tax advice and is not an implied or express recommendation, offer or solicitation to buy or sell any security or to adopt any particular investment or portfolio strategy. Any views and opinions expressed do not take into account the particular investment objectives, needs, restrictions and circumstances of a specific investor and, thus, should not be used as the basis of any specific investment recommendation. Investors should consult a financial and/or tax advisor for financial and/or tax information applicable to their specific situation.

The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns.

All monetary figures are expressed in Canadian dollars unless otherwise noted.
