Portfolio Strategy

The MegaLong (3X) Canadian Banks Daily Leveraged Alternative ETF seeks to replicate three times (3X) the daily performance of the Solactive Equal Weight Canada Banks Index, which is calculated in Canadian dollars, before fees and expenses.

Index Information

The Solactive Equal Weight Canada Banks Index tracks the performance of an equal-weighted portfolio of the largest Canadian banks. It includes major publicly listed Canadian banks and is rebalanced semi-annually.

Fund Performance

Returns are not available as this ETF has less than one year's performance data.

Sector Allocation

CIBC	16.49%
Bank of Montreal	16.36%

This ETF is an alternative mutual fund, as such, BNKU is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds.

This ETF is highly speculative. BNKU uses a significant amount of leverage which magnifies gains and losses. It is intended for use in daily or short-term trading strategies by very knowledgeable, sophisticated investors. If you hold this ETF for more than one day, your return could vary considerably from the ETF's daily target return. For example, you could lose your entire investment in one day if the underlying index of the ETF experiences a single-day price movement that is greater than 33%. The negative effect of compounding on returns is more pronounced when combined with leverage and daily rebalancing in volatile markets. BNKU is not suitable for investors who do not intend to actively monitor and manage their investments.

This material is for informational purposes only. This material is not intended to be relied upon as research, investment, or tax advice and is not an implied or express recommendation, offer or solicitation to buy or sell any security or to adopt any particular investment or portfolio strategy. Any views and opinions expressed do not take into account the particular investment objectives, needs, restrictions and circumstances of a specific investor and, thus, should not be used as the basis of any specific investment recommendation. Investors should consult a financial and/or tax advisor for financial and/or tax information applicable to their specific situation.

The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns.

All monetary figures are expressed in Canadian dollars unless otherwise noted.
