

# METROPOLITAN PUMP PRODUCT LINE CARD 2026 EDITION

A complete guide to our brands and products, featuring the trusted manufacturers and engineered solutions that support residential, commercial, industrial and municipal applications.

[METROPUMP.COM](http://METROPUMP.COM)

# ABOUT US

Since we started out, Metropolitan Pump Co. Limited has supplied equipment for countless applications all across Canada including homes, businesses, factories, military facilities, government projects, farms, breweries, waterparks & more. We have grown over the years but have always kept one simple goal in mind: to make it easy for our clients.

## INDEX

This line card showcases our complete range of pumping equipment. It reflects the trusted manufacturers and proven solutions we proudly represent.

- 3-4** RESIDENTIAL PUMPS
- 5-8** COMMERCIAL & INDUSTRIAL
- 9-10** MUNICIPAL PUMPS
- 11-12** WATER TREATMENT
- 13-14** WATER WELL
- 15-16** FIRE PROTECTION
- 17-18** VALVE SOLUTIONS
- 19-22** BASINS & COVERS
- 23-24** MOTORS & DRIVES
- 25-28** CONTROL PANELS & ALARMS
- 29-30** LEVEL & FLOW SENSING
- 31-32** RAINWATER HARVESTING
- 33-34** ACCESSORIES

# PUMPING EQUIPMENT SPECIALISTS

For five decades, Metropolitan Pump has focused exclusively on pumping and fluid handling equipment. Our deep product knowledge, strong manufacturer relationships, and commitment to service allow us to support projects of every size and complexity.

# OUR SERVICES

Our services are designed to support your success at every step.

## Quotations

Fast and precise quotations, including comprehensive bid spec submissions for competitive tenders.

## Startups & Training

Expert on-site startups and in-class training to ensure your team operates systems at peak performance.

## Service & Maintenance

Reliable service and maintenance to keep your pumping systems running efficiently and minimize downtime.

## Sizing & Selection

Expert sizing and selection services to ensure the right equipment for every application.

## Wholesale Supply

Supplying the wholesale market with high-quality, cost-effective pumping equipment solutions.

## Customer Support

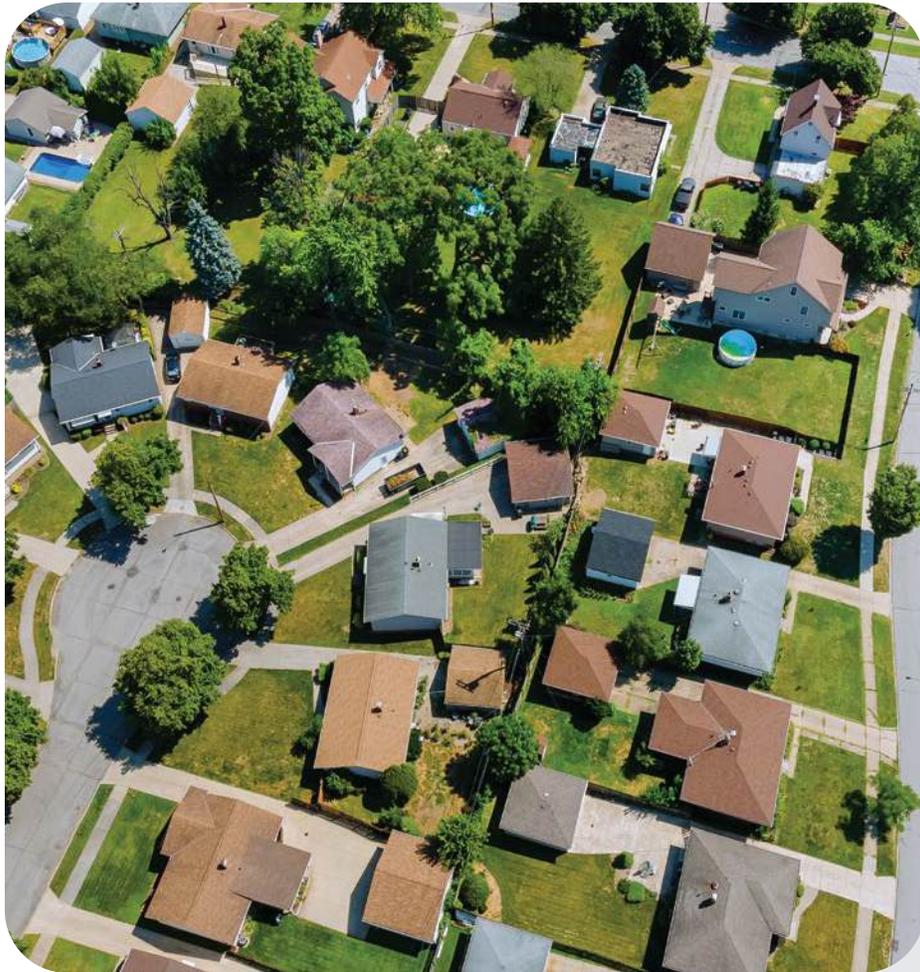

Expert customer support to guide you through every step, ensuring your satisfaction and system success.

“Our commitment has always been to provide reliable solutions and exceptional service. At Metropolitan Pump, we don't just deliver equipment; we deliver trust, expertise, and partnerships that last.” - *Brett Murray, President*

Our residential solutions include sump pumps, sewage pumps, grinder pumps, and more — engineered to handle everyday and demanding water management challenges with ease. Featuring products from trusted, industry-leading brands, we deliver dependable performance, long-term reliability, and energy-efficient operation. Our residential lineup supports a wide range of applications, from rainwater harvesting and hot water circulation to wastewater handling and backup protection.

**SUBMERSIBLE SUMP PUMPS**

**HOT WATER CIRCULATION**

**SAND AND TRASH PUMPS**

**SEWAGE EJECTOR PUMPS**

**RAINWATER HARVESTING**

**CONDENSATE PUMPS**

**CENTRIFUGAL PUMPS**

**EFFLUENT PUMPS**

**HEATING PUMPS**

**UTILITY PUMPS**

Our residential pump solutions are designed to deliver reliable performance, efficiency, and peace of mind for homeowners. Whether managing groundwater, wastewater, or hot water circulation, our systems are built for durability and long-term dependability. Backed by trusted brands and expert support, we provide solutions that ensure consistent operation, protect property from water damage, and enhance overall system efficiency.

# METROBOOST

Premium Domestic Booster Packages

up to  
**70%**  
Energy Savings

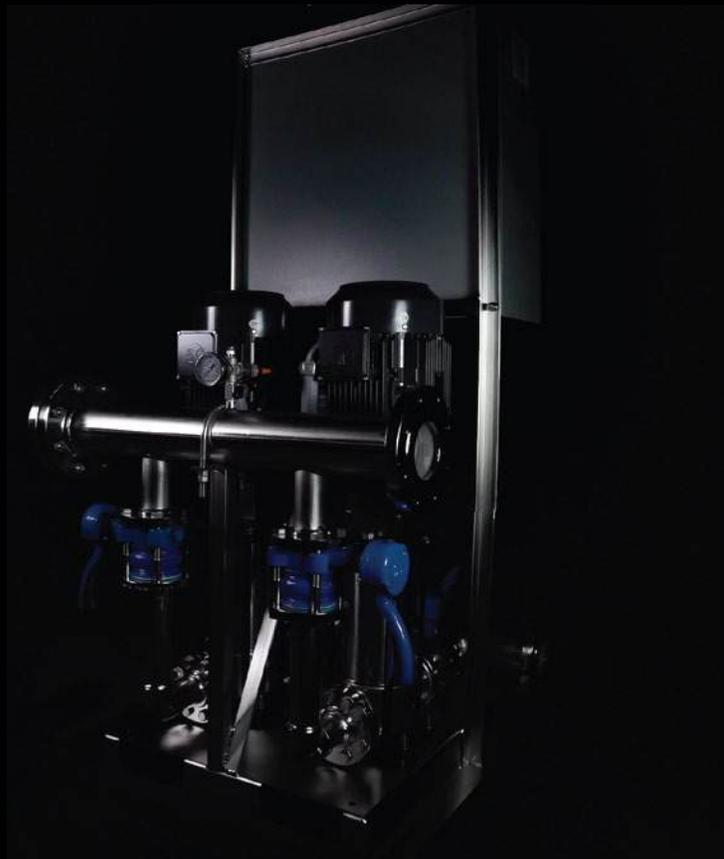

## Performance without compromise

Your precision-engineered, high-performance solution for domestic water boosting, capable of handling flows of up to 2400+ US gallons per minute.

Engineered for reliability, MetroBoost combines a compact design with stainless steel construction & top-notch technology, ensuring durability & performance in demanding applications.

Our factory programming ensures seamless integration with site conditions, while the intuitive Bluetooth® mobile app functionality provides convenient monitoring at your fingertips.

Trust MetroBoost to elevate your water pressure system to new heights of efficiency & performance.

### **The most compact system available on the market**

MetroBoost is meticulously designed for maximum space efficiency. With its compact design measuring only 30 in x 36 in, it boasts a 30% smaller footprint compared to the closest competing system.

This space-saving design not only allows users to conserve floor space but also ensures a simple installation process.

### **Now with an even smaller version**

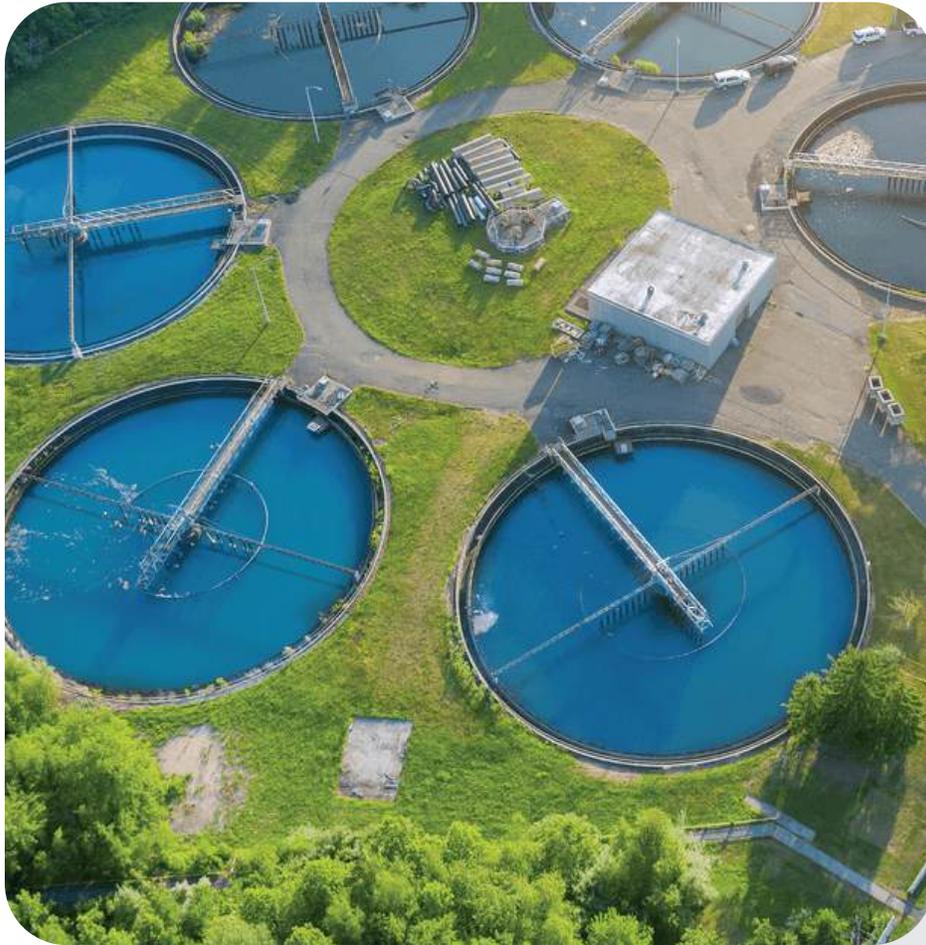

Introducing MicroBoost, our most compact and space-efficient system yet, measuring just 17" x 20". Despite its reduced footprint, it delivers up to 200 GPM and 150 PSI of boost performance.

MicroBoost is engineered specifically for retrofits and tight mechanical rooms where every inch of space matters — without compromising power or performance.

# ENGINEERED LIFT STATIONS BUILT TO PERFORM READY TO INSTALL

Prefabricated fiberglass lift stations designed for industrial, commercial and municipal wastewater applications.

**AVAILABLE WITH H2O COVERS**

# PREFABRICATED LIFT STATIONS

Metropolitan Pump provides prefabricated fiberglass lift stations designed for dependable wastewater collection and transfer. Each system includes a fully assembled fiberglass wet well with internal components and cover pre-installed. Fully customizable and delivered ready for pump installation.

## ADVANTAGES

### ✓ FIBERGLASS CONSTRUCTION

Lightweight, durable, and eco-friendly, fiberglass lift stations are easier to transport, install, and maintain.

### ✓ CUSTOM CONFIGURATIONS

Easily modified to meet specific project demands and suitable for a diverse range of applications.

### ✓ SHORTEST LEAD TIMES

Offering the fastest delivery for industrial-grade basins available on the market.

### ✓ STREAMLINED INSTALLATION

Prefabricated options make for a smoother installation, saving time and reducing costs.

## GET IN TOUCH

# P500 SERIES ALARMS

## INDOOR

The industry standard. The P500 Alarm is an excellent choice for any application where audible and visual alarms are all that's needed. It's dependability has made the P500 a go-to product for contractors and home owners alike.

## OUTDOOR

Equipped with a NEMA 4X rated enclosure, the P500-4X offers a superior level of protection from corrosion and extreme environments.

## WiFi

The newest edition to the P500 series allows you to maintain peace of mind from anywhere. Download the free VizzySite app (available on Google Play Store & Apple App Store) to receive email or text notifications any time an alarm condition occurs.

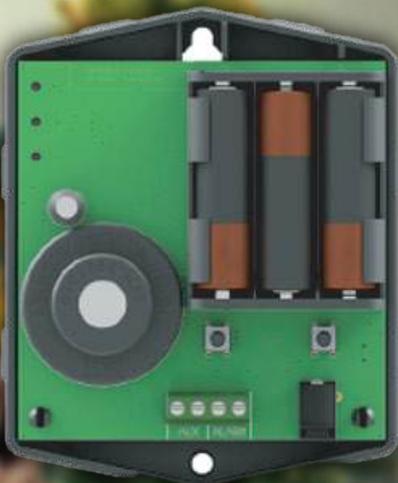

Metropolitan Pump's P500 Series alarms offer versatile and dependable monitoring for both high & low water levels. With indoor, outdoor, and Wi-Fi-enabled models, the P500 Series provides advanced alert systems for homes, cottages, commercial and industrial applications and more.
