

# PRO NPK 5-10-10

## TURF AND SOIL SOLUTIONS

### GUARANTEED ANALYSIS

Total Nitrogen (N)	5%
Ammonical Nitrogen	0.12%
Other Water Soluble Nitrogen	4.88%
Available Phosphate (P2O5)	10%
Soluble Potash (K2O)	10%

### WHY IS PRONPK 5-10-10 UNIQUE

Combining the best nutrients in the best formulation is not always easy to do. We have done it for you with this new proprietary product PRO NPK 5-10-10. Combining plant derived protein nitrogen with safe forms of rock phosphate and potassium sulfate, this combination product is the go-to turf maintenance product for building roots in the spring and fall.

### USE WITH PROTEIN NITROGEN

Formulated with plant derived protein nitrogen, the product provides a rapid and efficient supply of nitrogen and carbon. The natural plant proteins also help nutrient uptake, use and transportation inside the plant.

### WHY USE PRO NPK 5-10-10

As an additive to existing nutrient programs, you can expect these highly available forms of nutrients to provide rapid benefits to your turf by providing nutrients in the forms that they can readily use and assimilate. The right ratios of available NPK are essential to performance, especially in poor soil and poor water quality areas.

## DIRECTIONS FOR USE & SUGGESTED RATES

- Greens and Tees: 2 - 4 pounds per acre

Low rates are weekly maintenance. High rates are for corrective requirements. Adjust for bi-weekly applications.

### DERIVED FROM: Soy Protein Isolate Hydrolysate, Rock Phosphate, and Potassium Sulfate

Information regarding the contents and levels of metals in this product is available at:
