## WHY USE LES

LES is a proprietary blend of plant amino acids, proteins, and carbohydrates that stimulate and accelerate the natural organic breakdown of plant residues. This supplementation and rapid breakdown of organic matter provides an excellent energy source for microbiological organisms in the soil system.

LES is an ideal soil conditioning component for facilitating soil aggregation, aeration, nutrient release, water penetration, and natural water retention.

LES contains humic and fulvic acids that can assist and provide a buffering effect in alkaline soils.

## Directions For Use and Suggested Rates

- Greens and Tees: 3 - 9 ounces per 1000 sq/ft
- Fairways: 2 - 6 gallons per acre

Low rates are weekly maintenance. High rates are for corrective requirements. Adjust for bi-weekly applications.

## Features and Benefits
