

Rescue Tablet

Precision EZ-Tabs are a unique blend of polymeric surfactants designed to increase water infiltration, improve water retention, provide a rescue treatment for localized dry spot (LDS) and reduce product handling. Precision EZ-Tabs may be used alone or as part of a comprehensive water management program

Features & Benefits

- Fits in commercial hose applicators—easy to use
- Can be used alone or as part of a comprehensive water management program—flexible

USE RATES:

- One tablet should cover approximately 12,000–18,000 ft² of turf. Severity of localized dry spot, water temperature, water pressure and application technique may cause coverage to vary.
- Each EZ-Tab will last approximately 40 minutes.

See label for complete usage information.

Please check with your Aquatrols distributor for available pack sizes.
