

# FIGHTS COMPACTION

## EASE OF TILLAGE • AIDS IN WATER INFILTRATION

## REDUCES EROSION • REDUCES CRUSTING

---

---

**DIRECTIONS FOR USE:** Apply ACT® in a broadcast application over the entire field for maximum benefit.

**APPLICATION RATE:** General recommended amount is 6 oz. of ACT® per acre. Mix ACT® with water according to your method of application. On sandy to lighter clay soils the 6 oz. rate of ACT® is found to be most effective. On heavy clay and gumbo type soils a 6 oz. rate of ACT® may be recommended annually. In extreme dry conditions, it may be necessary for 1 1/2 to 2 inches of rain fall to activate ACT® thoroughly.

**APPLICATION TIME:** ACT® can be applied anytime throughout the year. Preferred times are in the fall (just after harvest) or in the spring (before planting).

**METHOD OF APPLICATION:** It is not necessary to incorporate ACT®. ACT® can be surface applied on soil, over growing crops, and on no-till with burn down.

**COMPATIBILITY:** ACT® is compatible with most pesticides, herbicides and fertilizers. However, a compatibility test is recommended if in doubt. Do not mix with chemicals that are known to be harmful to seedlings before emergence. Do not mix ACT® with chemicals that prohibit the use of surfactants. To reduce foaming add ACT® after tank has been filled.

**WARRANTIES AND LIMITATION OF DAMAGE:** The seller warrants that this material conforms to the chemical description and is formulated for the purpose stated on this label, when used accordingly with directions under normal conditions. The buyer assumes the risk of any use contrary to directions. The seller makes no expressed or implied warranties including any other expressed or implied of fitness. No agent or seller is authorized to do so, except in writing with a specific reference to this warranty. In no event shall the sellers liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

**SAFETY:** ACT® is a biodegradable, non toxic product. ACT® can safely be applied around livestock and near water.

**CAUTION:** Excessive contact to the skin may cause irritation. If eye contact is made, rinse thoroughly with water. Keep out of reach of children.

**ACTIVE INGREDIENTS:**

|                               |     |
|-------------------------------|-----|
| Ammonium laureth sulfate..... | 56% |
| inert ingredients.....        | 44% |

**WEIGHT:**

..... 21.5 LBS., (9.75kg)  
2 1/2 U.S. Gallon / 9.5 Liters
