WHY WORK WITH US

A critical competitive differentiation lies in all our assignments and assessments being Partner-led, which means exceptional advice and insight and a proven ability not only to source strong and diverse candidates, but also to close searches successfully.

We pride ourselves on our cross-practice, collaborative approach to Executive Search. This collaboration ensures our clients have access to the widest possible pool of talent, and that they receive a broad perspective, seamless search processes and impactful placements.

THE BENEFITS OF OUR APPROACH

SEAMLESS MULTIPLE HIRES

We can seamlessly fill multiple roles across a single institution, ensuring skills hired are complementary and placements' aims are aligned.

SECTOR SPECIFIC OR BROAD REMIT

Whether a role has a specific sector remit or needs to cover a variety of areas – we have access to the right talent for each role.

UNPARALLELED NETWORKS

Cross-practice collaboration ensures we find and engage candidates with relevant, transferable skills that would have been undiscovered in a 'single practice approach.'

GLOBAL SPORTS PRACTICE

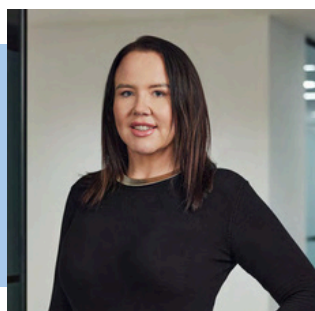

Our Global Sports Practice advises rights holders, governing bodies, teams, leagues, broadcasters, sponsors, and investors across the global sports ecosystem on building world-class leadership teams.

Our work spans executive and board search, leadership assessment, succession planning, and strategic advisory on governance, culture, and team performance. We specialise in board and executive-level appointments, from CEO and C-suite leadership through to senior functional and commercial roles.

With over 30 years of expertise, Sainty Hird & Partners is a values-driven, B Corp certified leadership advisory firm, trusted by clients globally. Through a global platform and a deep commitment to excellence, integrity, and diversity, we help organisations shape leadership that reflects the scale, ambition and complexity of modern sport.
