

May 9, 2024

To Our Valued Customers,

Our resin suppliers have informed us the previously announced April increase will be implemented. The reason for the increase is due to recent events that effect logistics worldwide like Red Sea and continued high demand globally and domestically.

Due to the resin increase, K Pack will implement an increase of 4% on all stretch film products with all new orders placed on May 27th, 2024.

All orders must call for immediate delivery or will call. Based on current lead times and resin availability, K Pack can only accept a limited number of new orders and reserves the right to accept or decline any order for any reason.

We will work closely with you to manage the impact of these price adjustments and keep you abreast of changing market conditions. Please contact your sales representative if you should have any questions or concerns regarding the applicable price increase and or product availability.

We appreciate your business and the opportunity to serve your packaging requirements.

Sincerely,

A handwritten signature in black ink, appearing to be "NH", is written in a cursive style.
