October 28, 2024

Dear Valued Customer,

The entire DEMA and Viking team extends our sincere appreciation for your business and the confidence you have in our range of products and services. With rising costs in many areas of our business, we find it necessary to implement a modest price increase.

Effective January 1, 2025, DEMA and Viking will increase prices 2.75% on most products, parts and accessories. There will be no increase on products introduced in 2024, and slightly higher increases on several product categories impacted by electronic component shortages and other significant material cost increases.

A complete pricelist will be available starting December 2024 in hard copy or electronically. Please contact DEMA customer service at 1-800-325-3362 or by e-mail at sales@demaeng.com and Viking customer service at 1-800-441-1343 or sales@thevikingbowl.com to request a price list in any form.

The DEMA team will continue to design, develop, and produce the highest quality and feature-rich products to support your company's chemical dispensing and fluid control requirements. If you have any questions or need assistance, please contact your local DEMA & Viking Sales Manager or our customer service departments.

Thank you for your continued support.
