

FLOOR PADS QuickPick

PRO-BRANDS®

Selecting the right floor pad is as important as choosing the right floor equipment. Our private label Pro-Brands line of floor pads literally covers all our customers' floor cleaning and maintenance goals.

The floor pad's color determines the function it can perform—cleaning, scrubbing, stripping, buffing, polishing, or burnishing.

To recommend the correct type of floor pad, first, refer to the 'USE(S)' column; this will guide you to the pad color(s). Next, identify equipment, and lastly, the size of pad your customer needs.

Stripping Pads			
PAD	USE(S)	EQUIPMENT	SIZES STOCKED
Brown Strip Pad	Use for lighter-duty stripping. Stronger than a green scrubbing pad, but not as strong as a black or emerald stripping pad.	1. Low Speed Buffer 2. Automatic Scrubber	Special Order
Black Pad	Use to strip most floors. (Most common stripping pad.) Apply stripper. Let dry 3-5 minutes and then strip with pad. Mop residue up or pick of up with Wet Vac.	1. Low Speed Buffer 2. Automatic Scrubber	13", 17" and 20"
Emerald Hy-Pro Strip Pad	Use for abrasive stripping needs. This pad is tear resistant and durable. It is our most abrasive stripping pad, above the brown and the black.	1. Low Speed Buffer 2. Automatic Scrubber	14" and 20"

Scrubbing Pads			
PAD	USE(S)	EQUIPMENT	SIZES STOCKED
Red Pad	Use for light scrubbing with neutral cleaner to remove floor marks with low-speed buffer or autoscrubber (may remove top layer of finisher). Apply neutral floor cleaner with a mop and then either scrub with low speed buffer or an automatic scrubber. Alternatively, some low speed buffers may have water tanks.	1. Low Speed Buffer 2. Automatic Scrubber	12", 13", 14", 17" and 20"
Blue Pad	Use for medium-level scrubbing with either a low speed buffer or an automatic scrubber. Stronger than a red pad, but not as strong as a green pad.	1. Low Speed Buffer 2. Automatic Scrubber	17"
Green Pad	Use for deep scrubbing. This is the most aggressive scrubber pad. Use this pad to deep scrub before recoating with finish. Doing so will extend the period between strip outs.	1. Low Speed Buffer 2. Automatic Scrubber	17", 20" and 22"

Cleaning Pads

PAD	USE(S)	EQUIPMENT	SIZES STOCKED
Tan Buffer Light Pad	Use for <i>light</i> cleaning. This pad removes scuff and black heel marks, while producing a high gloss shine.	1. Low Speed Buffer 2. Automatic Scrubber	20"
Blue Pad	Use for cleaning <i>medium</i> and <i>heavy duty</i> floors to eliminate scuff and heel marks (use with neutral cleaner). This will remove the top layer of floor finish.	1. Low Speed Buffer 2. Automatic Scrubber	17"

Buffing Pads

PAD	USE(S)	EQUIPMENT	SIZES STOCKED
Red Pad	Use for <i>spray buffing</i> with spray buff with a low speed buffer to improve shine after it has begun to dull.	Low Speed Buffer	12", 13", 14", 17" and 20"
Tan Buffer Light Pad	Use for <i>dry buffing</i>. This pad removes scuff and black heel marks, while producing a high gloss shine.	Low Speed Buffer	20"

Low-Speed Polishing Pads

PAD	USE(S)	EQUIPMENT	SIZES STOCKED
White Pad	Use <i>dry</i> or with restorative products (New Life and BounceBack) to polish floors. Make sure floors are dust mopped and cleaned before using. A small mist of water may be used to create a wetter floor look. Always polish after scrubbing (and possibly recoating if it's necessary to recoat with finisher).	Low Speed Buffer	13", 14", 17" and 20"

High-Speed Burnishing Pads

PAD	USE(S)	EQUIPMENT	SIZES STOCKED
Pink Burnishing Pad	Designed to burnish floors, restoring finish and improve gloss. Removes scuffs and heel marks with minimal finish removal.	1. High Speed Burnisher 2. Ultra High Speed Burnisher	Special Order
Beige Poly Thermal Pad	Use for <i>propane burnishing</i>. This pad resists high levels of heat and yields very, very high-gloss finishes.	1. High Speed Burnisher 2. Ultra High Speed Burnisher	20"
Hair Pad	Use <i>hair pad (light, heavy, xhvy)</i> to burnish floors. The lubricating properties of natural hair make for a wet look finish when burnishing with high-speed and ultra-high speed buffers (dry buff or spray water lightly).	1. High Speed Burnisher 2. Ultra High Speed Burnisher	LIGHT 12" HEAVY 17", 24", 27" XHVV 20"
