

BIONATURE® | Mineral-Filled Polypropylene (MFPP) Containers

What is MFPP and what makes it eco-friendly?

MFPP is a combination of polypropylene plastic and a mineral blended material. MFPP is an excellent cost-effective eco-friendly alternative to foam. On average, MFPP products contain only 50% plastic, reducing plastic usage by half.

Product Features:

- Eco-friendly alternative—reusable and contains an average of only 50% plastic
- Leak resistant with perimeter seal and stackable
- Microwavable and heat lamp safe
- Soak proof material with superior cut resistance compared to other eco-friendly alternatives
- Top rack dishwasher safe
- Cost-effective and visually appealing alternative to foam
- Temperature resistant from 40 °F to 230 °F
