

Tork PeakServe®

Think ahead.

Now your customers can serve their entire facility with the same system

Secure the new hygiene standard with Tork PeakServe

Continuous system is the new standard for high-capacity dispensing

Tork PeakServe uses **compressed towels** to:

- Offer **the highest capacity** on the market¹
- **Save on storage space** and reduce transportation environmental impact

With dispensers that can be quickly and easily **refilled at any time**, you **avoid run-outs** and waste. This allows you to:

- **Free up staff time** for actual cleaning
- **Speed up restroom flow**

And since people **only touch the towels they use**, you get a very hygienic hand drying solution that helps you **secure the new hygiene standard**.

1. Compared to competitor's longest roll towel system in North America

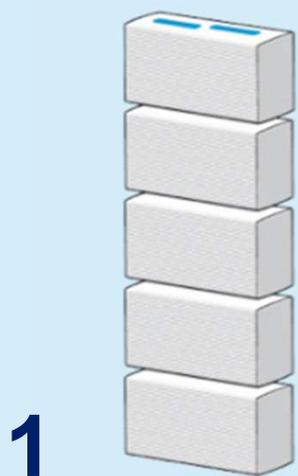

A groundbreaking new system

- The system is **continuous**: The bundles latch onto each other when loaded and towels are connected so they dispense with no interruption.
- The towels are **compressed by 50%¹** to fit twice as many in less space.

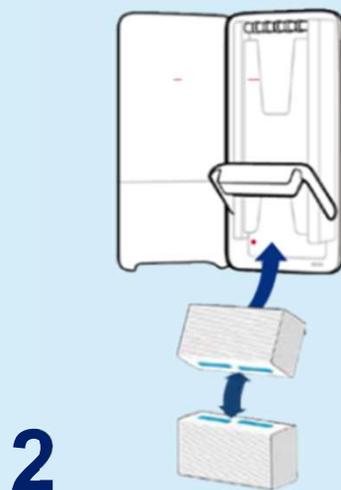

1. Compared to Tork Universal Folded Towels

How Tork PeakServe works

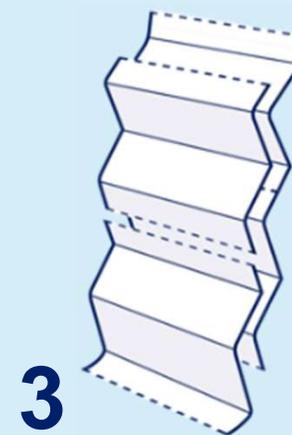

**Towels are compressed by 50%¹
giving up to 2,100 towels per dispenser²**

1. Compared to Tork Universal Folded Towels
2. When used with Tork Advanced PeakServe Continuous Hand Towel

**Bundles are loaded from underneath for fast
refilling at any time. Continuous bundles latch
together as bundles are loaded**

**Bundles dispense without
interruption, one towel at a time**
