Subject: Important Update: New Tariffs Price Adjustments & New Competitive Offers

Dear Valued Customer,

At Packnwood, we are committed to providing you with the best quality products at competitive prices. Today, we want to share an important update regarding our pricing.

Due to recent international trade policy changes, a 10% tariff increase has been imposed on all products imported from China as of February 4th 2025. As a result, we must quickly adjust our prices to reflect these new costs that went into effect without much notice. While we have made every effort to absorb these increases and give you as much notice as possible, some products will see a moderate price adjustment starting March 10th.

However, we also recognize the importance of staying competitive and offering the best value to our customers. That's why, after careful evaluation, we have **decided to reduce prices on some products** where we have been able to optimize our sourcing and logistics. This means you will now find even better deals on some of our most popular items.

We remain committed to transparency, fairness, and providing you with top-tier service. If you have any questions or would like to learn more about these adjustments, please do not hesitate to reach out.

Thank you for your continued trust in Packnwood. We appreciate your support and look forward to serving you.
