

March 31, 2025

Dear Valued Dart Customer,

Due to continued increases in manufacturing, distribution, and other costs, we are implementing a **5-10% price increase** on several product lines for our U.S. Foodservice and National Account customers, effective **May 1, 2025**.

Your updated pricing will be sent to you soon. Please note:

- Orders **placed before May 1, 2025**, with regular quantities and standard shipping timelines, will be honored at current pricing.
- Items unavailable at the time of fulfillment will not retain pre-increase pricing past the effective date.
- Contracted prices with firm guarantees remain unchanged until expiration. Pricing tied to an index will continue to adjust per the index agreement.
- Select products may be excluded or increased at a lower rate.

All orders received on or after May 1, 2025, will reflect the new pricing.

For more information, please contact your Dart Sales Representative or Customer Service Team.

Thank you for your continued support.
