

South Florida Tissue Paper Co.  
Manufacturing paper goods since 1997

4/13/2025

Dear Valued Customer,

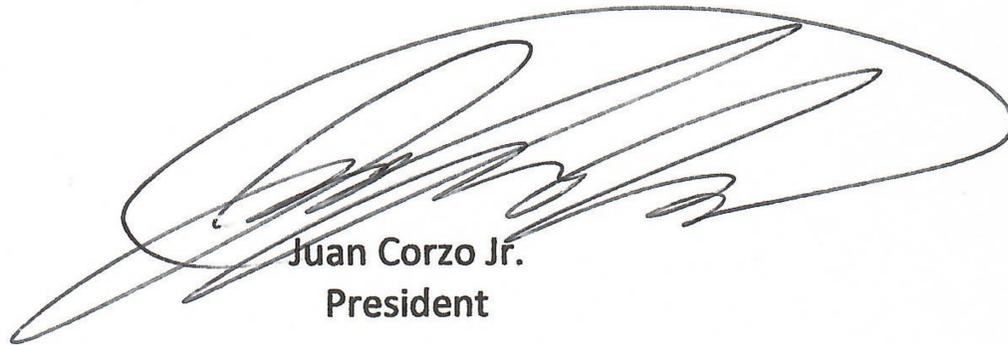

This is a letter to inform you that our team has been closely monitoring the Tariff situation for the past few weeks, in order to evaluate how it will impact our manufacturing process. Our product is fully converted in the United States, which allows us to avoid charging a tariff fee to our customers.

However, the sourcing of raw materials will be affected with certain materials we source overseas in South America. Despite our best efforts to absorb these increases and maintain a stable pricing, the cumulative effect has made it necessary to adjust our pricing structure.

Effective Monday, April 2025, we will be implementing a 6% price increase across our product line with the exception of BT191810, BT124, BT9000 and BT500 which will be increased by 5%. This adjustment will allow us to continue delivering the quality, service, and reliability you have come to expect from us.

We understand the impact that price changes can have on your business, and we are committed to transparency and open communication. Please know that this decision was made only after careful consideration and in response to market conditions outside of our control.

We truly appreciate your continued partnership and trust in South Florida Tissue Paper.  
Sincerely,

Juan Corzo Jr.  
President
