

May 30th, 2025

Dear valued customer,

We appreciate the trust and partnership you have placed in Magnera. Our commitment to delivering high-quality specialty material solutions and exceptional service remains unwavering, and we are grateful for the continued opportunity to support your business.

We are writing to inform you of a necessary price increase on Chicopee and Fiberweb branded wipers, driven by recent & sustained increases on tariffs on critical raw materials and labor rates. As a result, we plan to enact a 5.0% price increase.

- Chicopee, Berry Foodservice Towels, Fiberweb, Durawipe, Veraclean, Nubtex, Flextex, Snowtex, Red Runner and Webril products

All orders received before 8:00am Eastern Time, Tuesday, July 1, 2025 will be limited to 1/12 of your typical annual purchases. All orders received after this date will be billed at the new price.

This price increase reflects the cost escalation we are experiencing and is necessary to maintain long-term supply reliability and continued product innovation. We remain focused on managing costs responsibly while continuing to invest in reliable supply and long-term value for your business.

As always, thank you for your continued collaboration and business with Magnera. Please contact your Magnera account representative to discuss any further questions.

Sincerely,

Matt Kocian
