Dear Valued Customer,

At SC Johnson Professional, we are committed to continually improving our processes to ensure you have the best experience with our products – from purchase to use. As a valued customer, we want to inform you of some upcoming changes in our pricing structure.

Effective August 1, 2025, the following changes will take effect:

- Price changes for the overall SCJ Professional portfolio
- No price increase on Iconic Brands or Healthcare SKUs at this time
- Manufacturer Suggested Retail Prices (MSRPs) and Minimum Advertised Pricing (MAP) revised and listed for select skin care dispensers

An updated price list with individual item details is now available. Your SC Johnson Professional sales representative can provide further information on specifics and answer any questions you might have about optimizing future orders as these changes take effect.

On behalf of the entire SC Johnson Professional team, thank you for your continued patronage and partnership.

Sincerely,

Bryant Davis
Vice President, North America
